Tilting Newfoundland:

Erin's Sons Terrence M. Punch,2008 From the time of the earliest European colonies there were Irish settlers in the four provinces of Atlantic Canada Newfoundland and Labrador Prince Edward Island New Brunswick and Nova Scotia Despite the flow of Irish through Atlantic Canada the early records of these immigrants are fewer and less informative than those of New England and New York from the same period Erin's Sons Irish Arrivals in Atlantic Canada 1761-1853 goes a long way toward rectifying this problem Author Terrence M Punch has combed through a wide ranging and disparate group of sources including newspaper articles and advertisements local government documents and census records church records burial records land records military records passenger lists and more to identify as many of these pioneers as possible and disclose where they came from in the Old Country These sources often contain details that cannot be found in Irish records where few census returns survived from before 1901 and where Catholic records began a generation or more after their counterparts in Atlantic Canada Tilting Robert Mellin,2003-01-31 Tilting is author Robert Mellin's personal account of the houses outbuildings furniture tools fences docks and way of life of a fishing village on a small island far off the Canadian coast Part journal part sketchbook part oral history Tilting is a treasure chest of a book that offers new discoveries with each reading and a reminder of the simpler aspects of life and building *The Human Shore* John R. Gillis,2015-11-17 Since before recorded history people have congregated near water But as growing populations around the globe continue to flow toward the coasts on an unprecedented scale and climate change raises water levels our relationship to the sea has begun to take on new and potentially catastrophic dimensions The latest generation of coastal dwellers lives largely in ignorance of the history of those who came before them the natural environment and the need to live sustainably on the world's shores Humanity has forgotten how to live with the oceans In *The Human Shore* a magisterial account of 100 000 years of seaside civilization John R Gillis recovers the coastal experience from its origins among the people who dwelled along the African shore to the bustle and glitz of today's megacities and beach resorts He takes readers from discussion of the possible coastal location of the Garden of Eden to the ancient communities that have existed along beaches bays and bayous since the beginning of human society to the crucial role played by coasts during the age of discovery and empire An account of the mass movement of whole populations to the coasts in the last half century brings the story of coastal life into the present Along the way Gillis addresses humankind's changing relationship to the sea from an environmental perspective laying out the history of the making and remaking of coastal landscapes the creation of ports the draining of wetlands the introduction and extinction of marine animals and the invention of the beach while giving us a global understanding of our relationship to the water Learned and deeply personal *The Human Shore* is more than a history it is the story of a space that has been central to the attitudes plans and existence of those who live and dream at land's end Islands Magazine ,2003-03 **Memoir** ,1910

Representation in Action Royce Koop,Heather

Bastedo,Kelly Blidook,2018-01-15 Members of Parliament MPs are often dismissed as trained seals helpless to do anything other than take commands from party leaders Representation in Action challenges this view of Canadian MPs and shows that the ways they represent their constituents are as diverse as Canada itself Royce Koop Heather Bastedo and Kelly Blidook examine the types of activities Members of Parliament engage in within their constituencies and in Ottawa and they systemically determine what accounts for differences in style and agency Drawing on original observational and interview research with eleven MPs and featuring detailed in depth case studies this book shows how MPs develop distinct approaches to the role of representative when addressing policy concerns assisting constituents with problems and connecting with those who elect them The first book to use intensive participant observation methods to study Canadian MPs and representation Representation in Action is a compelling portrait of diversity in representational styles
