Media, Criminal Law and Legality Laura Higson-Bliss, 2024-10-29 Utilising Lon Fuller's conception of legality this book argues that current legal provisions often used to control online abuse aided by social media do not conform to the basic principles of legality in the criminal law in turn threatening freedom of expression How we regulate inappropriate behaviour online often referred to as online abuse particularly online abuse aided by social media is a contemporary concern for governments across the globe Tragedies such as the death of a celebrity following a campaign of online abuse often hit the headlines followed by the same echo there should be a law against this Yet in England and Wales numerous laws exist to control prosecute and convict individuals who use the likes of social media to harass intimidate and abuse others online So why is the law failing to keep pace with modern technology This monograph critically examines this fundamental question from the perspective of legality Applying criminal law to three growing areas of concern it covers 1 racist speech 2 cyberharassment cyberstalking and 3 the sending of abusive messages online It then turns to examine the latest attempts by UK officials to tackle these issues through the implementation of the Online Safety Act 2023 and France's Germany's and India's attempts to regulate social media The book will be of interest to researchers in the field of criminal law and cyber law as well as online abuse harassment and discrimination Technology-Enhanced Learning Nicolas Balacheff, Sten
