Unexplained Phenomena Max Mason Hunter, 2016-06-02 Stories And Accounts Of Some Of The Most Strange And Intriguing Unexplained Phenomena There are things that occur in this world and have happened right through the whole of the human experience for which there has never been a rational explanation Remember explanations are just temporary going on and off in response to fads and fashions However the happenings they are supposed to explain carry on as mysteriously as ever Yet mysterious phenomena are also to a certain extent influenced by imagination For instance clusters

of living toads and hibernating swallows impressed into rocks regularly recorded by naturalists seem to have died out. Mariners these days hardly ever witness sea monsters and giant octopuses. Rings of dancing fairies once a common folklore belief are now rare. To make up for these temporary losses other kinds of weird and unexplained phenomena have come up in this modern age: UFO sightings, mutilations of cattle and horses, the phenomenon of crop circles etc. Having said that the standard mysteries those which have perplexed humanity from the very beginning continue to do so. Strange creatures and things fall at times slowly from rather unknown sources: people walk over glowing trenches of hot coals, encounter monsters in mountains and lakes and are subject to strange coincidences.
