Black Alison Mariella Désir, 2022-10-18 A searing expos on the whiteness of running a supposedly egalitarian sport and a call to reimagine the industry Runners know that running brings us to ourselves But for Black people the simple act of running has never been so simple It is a declaration of the right to move through the world If running is claiming public space why then does it feel like a negotiation Running saved Alison D sir s life At rock bottom and searching for meaning and structure D sir started marathon training finding that it vastly improved both her physical and mental health Yet as she became involved in the community and learned its history she realized that the sport was largely built with white people in mind Running While Black draws on D sir s experience as an endurance athlete activist and mental health advocate to explore why the seemingly simple human act of long distance running for exercise and health has never been truly open to Black people Weaving historical context from the first recreational running boom to the horrific murder of Ahmaud Arbery together with her own story of growth in the sport D sir unpacks how we got here and advocates for a world where everyone is free to safely experience the life changing power of movement As America reckons with its history of white supremacy across major institutions D sir argues that as a litmus test for an inclusive society the fitness industry has the opportunity to lead the charge fulfilling its promise of empowerment *The Leather Workers' Journal* ,1906 **Baptist Commonwealth** ,1909
