Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14 Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID 19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face-to-face teaching, has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full-time study as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices, and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities shares how institutions in the developing world and less privileged communities have reimagined and restructured blended education to enhance teaching and learning for underprivileged communities. This book aims to address blended learning solutions across institutional, program, course, and activity levels. The chapters will cover a variety of learning environments from rural settings to less developed countries and more, and explore the programs and courses designed to improve student success and accessibility in diverse student populations. This book is ideally intended for teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations.

The Educator's Guide to Texas School Law Jim Walsh, Frank Kemerer, Laurie Maniotis, 2014-09-15 Much has changed in the area of school law since the first edition of The Educator's Guide was published in 1986. Successive editions grew incrementally longer to keep abreast of legal developments. In this new eighth edition, the authors have streamlined the discussion by pruning older material and weaving in new developments. The result is an authoritative source on all major dimensions of Texas school law that is both well integrated and easy to read. Intended for Texas school personnel, school board members, interested attorneys, and taxpayers, the eighth edition explains what the law is and what the implications are for effective school operations. It is designed to help professional educators avoid expensive and time-consuming lawsuits by taking effective preventive action. It is an especially valuable resource for school law courses and staff development sessions. The eighth edition begins with a review of the legal structure of the Texas school system. As Chapter 1 notes, education law is a complex interweaving of state and federal constitutional, statutory, administrative, and judicial law. It is important to understand the nature of the system before reading other sections. Successive chapters address attendance and the

instructional program the education of children with special needs employment and personnel expression and associational rights the role of religion in public schools student discipline open meetings and records privacy search and seizure and legal liability under both federal and Texas law In addition to state law the book addresses the role of the federal government in school operation through such major federal legislation as the Americans with Disabilities Act the Individuals with Disabilities Education Act and the Family Educational Rights and Privacy Act Statute and case references are kept as simple as possible and a complete index of case citations is included for those readers who wish to consult the cases themselves The appendices describe how case law is reported and where to find it along with a glossary of legal terms and a listing of other sources on Texas school law *Today's Family Guide to Austin, 1993-1994* Lynda Crowell, 1993-07 Today's Family guide includes licensed child care facilities geographical public and private schools summer programs clubs and organizations sports programs recreation support groups parks museums libraries retirement communities licensed adult day care custodial care personal care and nursing facilities services to aid the caregiver or homebound Scientific and Technical Aerospace Reports ,1987 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database
