Weapon Mouth Adventures In The Free Speech Zone:

Weapon: Mouth Stoney Burke, 2014 *Weapon Mouth Adventures in the Free Speech Zone* is a must read for those who enjoy the nonfiction genre of political satire. This is a unique look at the life and times of one of America's last open air speakers. Stoney Burke. Not quite an autobiography but a long way from false fiction. Stoney writes a story filled with humor and heroics that only a man in a clown suit and the first amendment in his heart could muster up. From his youth in Michigan scraping racial slurs off the sidewalk in front of his house to confrontational realities to his hilarious presidential platforms it is a page turner. From Paul Krassner's foreword to Stoney's take on Occupy a gold mine of wit and wisdom is unearthed. This is a book that anyone to left of the Democrats can appreciate. *Weapon Mouth* is filled with original art work deep water musings tales of arrests and personal triumph culled from over 35 years of street performing and clowning. Stoney takes us on an adventure between the lines of the first amendment where the faint of heart dare not tread. ABOUT THE AUTHOR When not revealing truth to power Stoney Burke has supported himself in a variety of occupations from cab driver to big screen movie actor. He currently divides his time between Michigan and the S F Bay area. **American Journal of Public Health**

, 1987-07 Includes section Books and reports **Remembering the Cold War** David Lowe, Tony Joel, 2014-01-21 *Remembering the Cold War* examines how more than two decades since the collapse of the Soviet Union Cold War legacies continue to play crucial roles in defining national identities and shaping international relations around the globe. Given the Cold War's blurred definition it has neither a widely accepted commencement date nor unanimous conclusion what is to be remembered. This book illustrates that there is in fact a huge body of remembrance and that it is more pertinent to ask what should be included and what can be overlooked. Over five sections this richly illustrated volume considers case studies of Cold War remembering from different parts of the world and engages with growing theorisation in the field of memory studies specifically in relation to war. David Lowe and Tony Joel afford careful consideration to agencies that identify with being victims of the Cold War. In addition the concept of arenas of articulation which envelops the myriad spaces in which the remembering commemorating memorialising and even revising of Cold War history takes place is given prominence.
