*Interrogating the Real* Slavoj Žižek, 2013-10-24 Slavoj Žižek is one of the world s foremost cultural commentators a prolific writer and thinker whose vividly adventurous unorthodox and wide ranging writings have won him a unique place as one of the most high profile thinkers of our time Covering psychoanalysis philosophy and popular culture and drawing on a heady mix of Marxist politics Hegelian dialectics and Lacanian psychoanalysis the writings collected in *Interrogating the Real* reflect not only the remarkable extent of Žižek s varied interests but also reveal his controversial and dynamic style

**Kriya Yoga Unlocked** Triloki Nath, This is a Kriya Yoga book intended to be read and practised by everyone with without initiation Every word uttered by a Yogi has a special meaning that is totally unintelligible to even the highly intellectual people This book is written in such a way that everyone can follow it up while trading the path of Kriya People think that they are very intelligent but if they try to understand very seriously they realize perfectly that nothing is happening according to their intellect Only those whose breath is not blowing in the left or right nostril are intelligent in this world When breathing is faster then in one day and one night respiration can flow up to 113 680 times Normally during the same time the figure is 21 600 times During a day and night if respiration is faster than usual the breath can flow in and out 113 680 times Normally in the course of a day and night there are 21 600 breaths This figure is reduced by Kriya practice to 2 000 times So breathing 1 000 times in the day and 1 000 times in the night in a normal course provides greater Tranquility to a Yogi One of his breaths takes about 44 seconds Such a Yogi is matured in Kriya practice Thoughts are inseparably related to breathing So when the number of breaths is reduced thoughts are reduced proportionately Eventually with the tranquilization of breath thoughts are dissolved Thereby the seeker can attain the After effect poise of Kriya or eternal Tranquility which is Amrita nectar proper

**Thinking as Communicating** Anna Sfard, 2008-01-21 This book is an attempt to change our thinking about thinking Anna Sfard undertakes this task convinced that many long standing seemingly irresolvable quandaries regarding human development originate in ambiguities of the existing discourses on thinking Standing on the shoulders of Vygotsky and Wittgenstein the author defines thinking as a form of communication The disappearance of the time honoured thinking communicating dichotomy is epitomised by Sfard s term commognition which combines communication with cognition The commognitive tenet implies that verbal communication with its distinctive property of recursive self reference may be the primary source of humans unique ability to accumulate the complexity of their action from one generation to another The

explanatory power of the commognitive framework and the manner in which it contributes to our understanding of human development is illustrated through commognitive analysis of mathematical discourse accompanied by vignettes from mathematics classrooms
