**The Tale of Genji (Abridged)** Murasaki Shikibu, Suematsu Kencho, 2012-01-01 The Tale of Genji by Lady Murasaki is one of the world's most influential novels As the first psychological novel The Tale of Genji delves into the motivations and thoughts of the main characters which had never been done in previous novels The famous Japanese story is about Genji the son of an emperor When his mother died Genji's father married another woman who greatly resembled Genji's mother However Genji fell in love with his new stepmother causing problems between him and his own wife He pursues a number of affairs and is eventually exiled from the Capitol to a small rural town While Lady Murasaki did not base The Tale of Genji on a true story she was inspired by a Minister in the royal court She wrote the story in small installments for the ladies of the court which might explain why the story was never finished Lady Murasaki intended to keep the stories going as long as she possibly could She also created some of the most memorable female characters in literature As such The Tale of Genji is widely considered to be one of the greatest works in the Japanese literature canon as well as one of the most influential works of storytelling Contained in this volume is the abridged translation of Suematsu Kencho *Mono no Aware and Gender as Affect in Japanese Aesthetics and American Pragmatism* Johnathan Flowers, 2023-03-20 *Mono no Aware and Gender as Affect in Japanese Aesthetics and American Pragmatism* places the naturalistic pragmatism of John Dewey in conversation with Motoori Norinaga's *mono no aware* a Japanese aesthetic theory of experience to examine gender as a felt experience of an aware or an affective quality of persons By treating gender as an affect Johnathan Charles Flowers argues that the experience of gendering and being gendered is a result of the affective perception of the organization of the body in line with cultural aesthetics embodied in Deweyan habit or Japanese *kata* broadly understood as culturally mediated transactions with the world On this view how the felt sense of identity aligns with the affective organization of society determines the nature of the possible social transactions between individuals As such this book intervenes in questions of personhood broadly and identity specifically by treating personhood itself as an affective sense In doing so this book

demonstrates how questions of personhood and identity are themselves affective judgments By treating gender and other identities as aware this book advocates an expanded recognition of the how to be in the world through cultivating new ways of perceiving the affective organization of persons
