The Tea Party Three Principles

David M. Gold

The Tea Party Three Principles:

The Tea Party Elizabeth Price Foley,2012 The Tea Party Elizabeth Price Foley,2014-05-14 In The Tea Party Three Principles constitutional law professor Elizabeth Price Foley takes on the mainstream media's characterization of the American Tea Party movement asserting that it has been distorted in a way that prevents meaningful political dialogue and may even be dangerous for America's future Foley sees the Tea Party as a movement of principles over politics She identifies three core principles of American constitutional law that bind the decentralized wide ranging movement limited government unapologetic U S sovereignty and constitutional originalism These three principles Foley explains both define the Tea Party movement and predict its effect on the American political landscape Foley explains the three principles significance to the American founding and constitutional structure She then connects the principles to current issues as health care reform illegal immigration the war on terror and internationalism The Tea Party Elizabeth Price Foley,2012-02-06 Explains how the core principles of the Tea Party defines the movement and predicts its effect on the American political landscape

The Great Tea Party in the Old Northwest: State Constitutional Conventions, 1847-1851 David M. Gold,2015-04-04

Nullification and Secession in Modern Constitutional Thought Sanford Levinson,2016-09-09 The Missouri legislature passes a bill to flout federal gun control laws it deems unconstitutional Texas refuses to recognize same sex marriages citing the state's sovereignty The Tenth Amendment Center promotes the Federal Health Care Nullification Act In these and many other similar instances the spirit of nullification is seeing a resurgence in an ever more politically fragmented and decentralized America What this means in legal cultural and historical terms is the question explored in Nullification and Secession in Modern Constitutional Thought Bringing together a number of distinguished scholars the book offers a variety of informed perspectives on what editor Sanford Levinson terms neo nullification a category that extends from formal declarations on the invalidity of federal law to what might be called uncooperative federalism Mark Tushnet Mark Graber James Read Jared Goldstein Vicki Jackson and Alison La Croix are among the contributors who consider a strain of federalism stretching from the framing of the Constitution to the state of Texas's most recent threat to secede from the United States The authors look at the theory and practice of nullification and secession here and abroad discussing how contemporary advocates use the text and history of the Constitution to make their cases and how very different texts and histories influence such movements outside of the United States in Scotland for instance or Catalonia or Quebec or even England vis vis the European Union Together these essays provide a nuanced account of the practical and philosophical implications of a concept that has marked America's troubled times from the build up to the Civil War to the struggle over civil rights to battles over the Second Amendment and Obamacare **Dangerous Charisma** Jerrold Post,2019-11-05 Offering an in depth psychological and political portrait of what makes Donald Trump tick Dangerous Charisma combines psychoanalysis with an investigation into the personality of the current American president This narrative not only examines the life and psychology

of Donald Trump but will also provide an analysis of the charismatic psychological tie between Trump and his supporters While there are many books on Donald Trump there has been no rigorous psychological portrait by a psychiatrist who specializes in political personality profiling As the founding director of the CIA s Center for the Analysis of Personality and Political Behavior Dr Post has created profiles of world leaders for the use of American presidents during historic events As once stated by Jane Mayer of the New Yorker who characterized Dr Post as a pioneer in the field of political personality profiling he may be the only psychiatrist who has specialized in the self esteem problems of both Osama bin Laden and Saddam Hussein In this new book the psychiatrist who once served under five American presidents applies his expertise to profiling the current resident in the White House with surprising and revelatory results

Independent Agencies in the United States Professor Marshall J. Breger, Professor Gary J. Edles, 2015-04-01 Independent Agencies in the United States provides a full length study of the structure and workings of federal independent regulatory agencies in the US focusing on traditional multi member agencies such as the Securities and Exchange Commission the Federal Communications Commission the National Labor Relations Board and the Federal Trade Commission It recognizes that the changing kaleidoscope of modern life has led Congress to create innovative and idiosyncratic administrative structures including government corporations government sponsored enterprises governance public private partnerships systems for contracting out self regulation and incorporation by reference of private standards
