Creating Stellar Lessons with Digital Tools Kenneth J. Lutrebach,2022-05-12 Creating Stellar Lessons with Digital Tools prepares teachers in training and in service teachers to use technologies for design and

development activities with middle and high school students. While software, open resources, handheld devices and other tools hold great potential to enhance learning experiences, teachers themselves must model technology use in ways that inspire students to become producers and leaders rather than consumers and followers. Featuring concrete applications in social studies, English, mathematics and science scenarios, this book provides pre-service and in-service teachers with seven paths to creatively integrate and innovate with computational thinking, datasets, maker spaces, visual design, media editing and other approaches.

What doesn't kill you makes you stronger.
