Early Access Deals Booktok Trending Review:

Critical Internet Literacies Jamie Cohen, 2024-12-30 An introductory critical internet studies text that builds upon media literacy and digital culture theory to offer a thorough examination of the intersection of online technology and culture. We are now collectively at a hinge point in the evolution of the web where online influencers can sway national discourse. Geopolitical events are remixed through memes and online harms are misunderstood. This book argues that people are generally aware that online media has repercussions in off platform spaces but sometimes lack the language to properly critique online trends, memes, and internet born media. How are citizens, activists, and marginalized groups able to use these tools effectively and safely in these times? Jamie Cohen explores aspects of internet culture in an approachable manner, building upon critical media literacy and applying a critical technocultural analysis as a methodology to reimagine how media literacy can operate in an online media environment. The book explores key topics such as accessibility, the creator economy, content moderation, tech bias, platform capitalism, internet culture, and safety. Offering a new way of reading internet media and critiquing content and creators, this book is essential reading for students and scholars of digital culture, internet culture, media literacy, social media, and beyond.

The Routledge Handbook of Fan Video and Digital Authorship Louisa Ellen Stein, Samantha Close, 2025-10-31 This cutting edge collection explores the histories, aesthetics, and cultural work of fan video across a wide variety of manifestations and genres. Editors Louisa Ellen Stein and Samantha Close have assembled an edited collection that showcases the aesthetic diversity and transcultural dynamics at play in fan video as a widespread form. The collection explores the relationships between fan video as a set of DIY subcultural authorship forms and the broader evolving popular cultures of digital media, looking at how fan video structures and aesthetics influence other popular and commercial forms of digital video. In order to do so, it examines a wide range of fan video genres and practices, including vidding, reaction videos, self-insert TikToks, ASMR videos, Let's Play videos, streams, Bilibili videos, gif loops, fan films, crack videos, animatics, collection videos, deepfakes, fake trailers, and fan video essays, among others. It features chapters by a range of scholars working in the intersecting fields of digital media studies, fan studies, media studies, cultural studies, audience studies, video game studies, transcultural studies, and videographic studies. A field defining collection, this Handbook will be of interest to students and scholars of digital media studies, fan studies, media studies, cultural studies, videographic studies, and beyond.
