Swamp Screamer Charles Fergus,1998 Whether the panther survives or perishes Fergus has written a book that does it full justice His narrative is lively and full of anecdotes some of them eye openers Jonathan Yardley Washington Post As good as or better than any book I ve read in years about the awful and willful ignorance of homo sapiens about the living world Farley Mowat author of Never Cry Wolf Charles Fergus is a diligent reporter and straightforward writer You will enjoy his descriptions of forays into panther territory Kathleen Krog Miami Herald The Florida panther is an endangered species its way of life altered by the spread of suburban culture across the state In Swamp Screamer Charles Fergus tracks the fifty or so panthers that survive in Florida vividly describing the people trying to save these remarkable creatures including wildlife biologists trying to preserve panther habitat and radical animal lovers who regard the panther as a symbol of their crusade on behalf of nature Swamp Screamer is a surprising and often comic look at the wildlife movement today it is also an evocative history of the vanishing wilds of Florida and a deeply affecting portrait of the panthers themselves Charles Fergus has written six books including the novel Shadow Catcher a collection of essays The Wingless Crow and a memoir A Rough Shooting Dog He lives in a stone house that he built himself on a mountainside in central Pennsylvania An Everglades Providence Jack E. Davis,2013-05 No one did more than Marjory Stoneman Douglas to transform the Everglades from the country s most maligned swamp into its most beloved wetland By the late twentieth century her name and her classic The Everglades River of Grass had become synonymous with Everglades protection The crusading resolve and boundless energy of this implacable elder won the hearts of an admiring public while confounding her opponents growth merchants intent on having their way with the Everglades Douglas s efforts ultimately earned her a place among a mere handful of individuals honored as a namesake of a national wilderness area In the first comprehensive biography of Douglas Jack E Davis explores the 108 year life of this compelling woman Douglas was more than an environmental activist She was a suffragist a lifetime feminist and supporter of the ERA a champion of social justice and an author of diverse literary talent She came of age literally and professionally during the American environmental century the century in which Americans mobilized an unprecedented popular movement to counter the equally unprecedented liberties they had taken in exploiting polluting and destroying the natural world The Everglades were a living barometer of America s often tentative shift toward greater environmental responsibility Reconstructing this larger picture Davis recounts the shifts in Douglas s own life and her instrumental role in four important developments that contributed to Everglades protection the making of a positive wetland image the creation of a national park the expanding influence of ecological science and the rise of the modern environmental movement In the grand but beleaguered Everglades which Douglas came to understand is a vast natural system that supports human life she saw nature s providence Tears of the Cheetah Stephen J. O'Brien,2015-10-27 The history of life on Earth is dominated by extinction events so numerous that over 99 9% of the species ever to have existed are gone forever

If animals could talk we would ask them to recall their own ancestries in particular the secrets as to how they avoided almost inevitable annihilation in the face of daily assaults by predators climactic cataclysms deadly infections and innate diseases In Tears of the Cheetah medical geneticist and conservationist Stephen J O'Brien narrates fast moving science adventure stories that explore the mysteries of survival among the earth's most endangered and beloved wildlife Here we uncover the secret histories of exotic species such as Indonesian orangutans humpback whales and the imperiled cheetah the world's fastest animal which nonetheless cannot escape its own genetic weaknesses Among these genetic detective stories we also discover how the Serengeti lions have lived with FIV the feline version of HIV where giant pandas really come from how bold genetic action pulled the Florida panther from the edge of extinction how the survivors of the medieval Black Death passed on a genetic gift to their descendants and how mapping the genome of the domestic cat solved a murder case in Canada With each riveting account of animal resilience and adaptation a remarkable parallel in human medicine is drawn adding yet another rationale for species conservation mining their genomes for cures to our own fatal diseases Tears of the Cheetah offers a fascinating glimpse of the insight gained when geneticists venture into the wild

### **South to A New Place**

Suzanne W. Jones,Sharon Monteith,2002-11-01 Taking Albert Murray's South to a Very Old Place as a starting point contributors to this exciting collection continue the work of critically and creatively remapping the South through their freewheeling studies of southern literature and culture Appraising representations of the South within a context that is postmodern diverse widely inclusive and international the essays present multiple ways of imagining the South and examine both new places and old landscapes in an attempt to tie the mythic southern balloon down to earth In his foreword an insightful discussion of numerous Souths and the ways they are perceived Richard Gray explains one of the key goals of the book to open up to scrutiny the literary and cultural practice that has come to be known as regionalism Part I Surveying the Territory theorizes definitions of place and region and includes an analysis of southern literary regionalism from the 1930s to the present and an exploration of southern popular culture In Mapping the Region essayists examine different representations of rural landscapes and small towns cities and suburbs as well as liminal zones in which new immigrants make their homes Reflecting the contributors transatlantic perspective Making Global Connections challenges notions of southern distinctiveness by reading the region through the comparative frameworks of Southern Italy East Germany Latin America and the United Kingdom and via a range of texts and contexts from early reconciliation romances to Faulkner's fictions about race to the more recent parody of southern mythmaking Alice Randall's The Wind Done Gone Together these essays explore the roles that economic racial and ideological tensions have played in the formation of southern identity through varying representations of locality moving regionalism toward a new place in southern studies
