Syracuse 415 413 Bc Destruction Of The Athenian Imperial Fleet Campaign:

Syracuse 415-413 BC Nic Fields, 2008-05-20 Osprey's study of one of the most important battles of the Peloponnesian War 431-404 BC. In 415 BC Athens launched a large expeditionary force its goal the rich grain producing island of Sicily. This was in response to a call for help in a minor war from an old ally but the true objectives were the powerful city of Syracuse suspected of supporting Athens' Peloponnesian enemies and imperial expansion. The Athenians won an inconclusive victory over the Syracusans late in the year and renewed their attack in the spring of 414. After a period of energetic siege warfare and a series of large scale battles on land and sea the Syracusans gained the upper hand and the expedition ended in total disaster with grave consequences for the future of Athens. Nic Fields explores the background of this foolhardy venture in which Athens took on a nation that was militarily and financially strong and over 700 miles distant. Then following the narrative of Thucydides the chronicler of the Peloponnesian War he describes and explains the long and violent campaign that pitted the two largest democracies of the Greek world against each other. **Athenian Trireme vs Persian Trireme**

Nic Fields, 2022-07-21 A fascinating and detailed exploration of one of the most famous warships of the Ancient world the trireme and its tactical employment by the opposing sides in the 5th century BC Graeco Persian Wars. You may be familiar with the Athenian trireme but how much do you know about the ram armed triple oared warships that it dueled against at the battles of Artemision, Salamis and the Eurymedon River. How similar or different were these warships to each other. And why did the Persians rely on Phoenician vessels to form much of their navy. Much attention has been devoted to the Greek trireme made famous by modern reconstruction with only passing notice given to the opposing Persian navy's vessels in illustrated treatments. Join us on the Aegean as for the first time we reveal a rarely attempted colour reconstruction of a trireme in Persian service. Compare the form, construction, design, manoeuvrability and tactical deployment of the opposing triremes aided by stunning illustrations. Man the decks of these warships with the fighting complement of Greek citizen hoplites, Scythian archers and Persian marines and learn why the Greeks placed a bounty of 10,000 drachmae on the head of Artemisia the Karian queen and Persian admiral and the only woman among Xerxes' commanders. **Syracuse 415-413 BC**

The Spartan Way Nic Fields, 2013-02-28 One of the best books about the ancient world I've ever read, lively and informative. Toy Solder Model Figure. For a period of some 200 years Sparta was acknowledged throughout the Greek world as the home of the finest soldiers. Xenophon called them the only true craftsmen in matters of war. In this book Nic Fields explains the reasons for this superiority, how their reputation for invincibility was earned and deliberately manipulated and how it was ultimately shattered. The Spartan Way examines how Spartan society through its rigid laws and brutal educational system was thoroughly militarized and devoted to producing warriors suited to the intense demands of hoplite warfare: professional killers inculcated with the values of unwavering obedience and a willingness to fight and die for their city. The role of Spartan

women as mothers and wives in shaping the warrior ethic is considered as are the role of uniform and rigorous training in enhancing the small unit cohesion within the phalanx and the psychological intimidation of the enemy The final chapters chart the course of Sparta's successes through the period of the Persian and Peloponnesian Wars through the Corinthian and Theban wars of the fourth century BC which culminated with the shattering military defeats at Leuctra and 2nd Mantinea and the years of her decline with the Spartans as a source of mercenaries for the wars of other states Includes maps

Combined Arms Warfare in Ancient Greece Graham Wrightson, 2019-03-04 Combined Arms Warfare in Ancient Greece examines the timelines of military developments that led from the hoplite based armies of the ancient Greeks to the hugely successful and multi faceted armies of Philip II Alexander the Great and his Successors It concentrates on the introduction and development of individual units and their tactical coordination and use in battle in what is termed combined arms the effective integration of different unit types into one cohesive battle plan and army allowing each unit to focus on its strengths without having to worry about its weaknesses This volume traces the development and argues for the vital importance of the use of combined arms in Greek warfare from the Archaic period onwards especially concerning the Macedonian hegemony through to its developmental completion in the form of fully integrated warfare at the battle of Ipsus in 301 BCE It argues crucially that warfare should never be viewed in isolation in individual states regions conflicts or periods but taken as a collective whole tracing the mutual influence of other cultures and the successful innovations that always result Wrightson analyses Greek and Macedonian warfare through the lens of modern military theoretical terminology making this study accessible to those with a general interest in military history as well as those studying this specific period

Limiting Risk in America's Wars Phillip S Meilinger, 2017-11-15 The United States has the most expensive and seemingly unstoppable military in the world Yet since World War II the nation's military success rate has been meager The Korean War was a draw while Vietnam Mogadishu Afghanistan and Iraq were clear losses Successes include Iraq in 1991 the Balkans Croatia and Kosovo Panama the initial takedowns of Afghanistan in 2001 and Iraq in 2003 and Libya What differentiates the failures from the successes Failures have been marked by the introduction of large numbers of conventional American ground troops while successes have been characterized by the use of airpower special operations forces robust intelligence and sensor platforms and the use of indigenous ground troops Phillip S Meilinger's new book advocates strategies that limit risks in war as well as achieve measurable goals Instead of large numbers of conventional ground troops the author argues in favor of a focus on asymmetric capabilities a combination of airpower special operation forces intelligence and indigenous ground troops to achieve the desired political outcomes

Thoughts on War Phillip S. Meilinger, 2020-03-17 War is changing Unlike when modern military doctrine was forged the United States no longer mobilizes massive land forces for direct political gain Instead the US fights small overseas wars by global mandate to overthrow dictators destroy terrorist groups and broker regional peace These conflicts hardly resemble the total wars fought

and expected by foundational military theorists such as Carl von Clausewitz yet their paradigms are ingrained in modern thinking The twenty first century s new geopolitical situation demands new principles for warfare deemphasizing decisive land victory in favor of airpower intelligence systems and indigenous ground forces In Thoughts on War Phillip S Meilinger confronts the shortcomings of US military dogma in search of a new strategic doctrine Inter service rivalries and conventional theories failed the US in lengthy Korea Vietnam and Middle East conflicts Jettisoning traditional perspectives and their focus on decisive battles Meilinger revisits historical campaigns looking for answers to more persistent challenges how to coordinate forces manipulate time and fight on two fronts This provocative collection of new and expanded essays offers a fresh if controversial perspective on time honored military values one which encourages a critical revision of US military strategy

The New Larned History for Ready Reference, Reading and Research Josephus Nelson
Larned,1923 **The Athenian Expedition to Syracuse 415-413 B.C** Calum Gilmour,2011 The Tyrants of Syracuse Volume II Jeff Champion,2012-07-19 This is the story of one of the most important classical cities Syracuse and its struggles both internal and external for freedom and survival Situated at the heart of the Mediterranean Syracuse was caught in the middle as Carthage Pyrrhus of Epirus Athens and then Rome battled to gain control of Sicily The threat of expansionist enemies on all sides made for a tumultuous situation within the city resulting in repeated coups that threw up a series of remarkable tyrants such as Gelon Timoleon and Dionysius In this first volume Jeff Champion traces the course of Syracuse s wars under the tyrants from the Battle of Himera 480 BC against the Carthaginians down to the death of Dionysius I 367 BC whose reign proved to be the high tide of the city s power and influence One of the highlights along the way is the city s heroic resistance to and eventual decisive defeat of the Athenian expeditionary force that besieged them for over two years 415 413 BC an event with massive ramifications for the Greek world This is the eventful life story of one of the forgotten major powers of the ancient Mediterranean world

Armada from Athens: [the Failure of the Sicilian Expedition, 415-413 B.C.] Peter GREEN,1971 **Financing the Athenian Fleet** Vincent Gabrielsen,2010-11-01 To meet the enormous expenses of maintaining its powerful navy democratic Athens gave wealthy citizens responsibility for financing and commanding the fleet Known as trierarchs literally ship commanders they bore the expenses of maintaining and repairing the ships as well as recruiting and provisioning their crews The trierarchy grew into a powerful social institution that was indispensable to Athens and primarily responsible for the city s naval prowess in the classical period Financing the Athenian Fleet is the first full length study of the financial logistical and social organization of the Athenian navy Using a rich variety of sources particularly the enormous body of inscriptions that served as naval records Vincent Gabrielsen examines the development and function of the Athenian trierarchy and revises our understanding of the social political and ideological mechanisms of which that institution was a part Exploring the workings ships and gear of Athens navy Gabrielsen explains how a huge costly and highly effective operation was run thanks to the voluntary service and contributions of the wealthy

trierarchs He concludes with a discussion of the broader implications of the relationship between Athens democracy and its wealthiest citizens

Armada from Athens Peter Green,1970

The Experience of Battle in the Sicilian Expedition Frank D'Earmo,2013 Drawing on John Keegan s Face of Battle approach this MA thesis reconstructs the soldiers experience during the final phase of the Athenians Sicilian Expedition 415 413 BC By integrating a thorough analysis of the extant historiographical sources Thucydides Diodorus Siculus Plutarch s Life of Nicias with the intrinsic aspects of ancient Greek naval and land warfare the topography around Syracuse and the Athenian soldiers psychological condition I seek to improve our understanding of how and why the Athenians and their allies lost the decisive naval engagement in the Great Harbour and failed to escape the Syracusans during their final retreat overland I make the case that the Athenian defeat is largely caused by factors outside of their control such as access to resources geography and Syracusan preparedness However the Athenian s also suffered owing to their own inaction caused by demoralization

An Ancient Overseas Campaign W. C. I. Stiles,1928* Examines the disastrous overseas expedition conducted by the Athenians against the city of Syracuse in 415 B C
