**The Origin of Races** Carleton Stevens Coon,1973     *Science for Segregation* John P. Jackson, Jr.,2005-08-01 In this fascinating examination of the intriguing but understudied period following the landmark Brown v Board of Education decision John Jackson examines the scientific case aimed at dismantling the legislation Offering a trenchant assessment of the so called scientific evidence Jackson focuses on the 1959 formation of the International Society for the Advancement of Ethnology and Eugenics IAAEE whose expressed function was to objectively investigate racial differences and publicize their findings Notable figures included Carleton Putnam Wesley Critz George and Carleton Coon In an attempt to link race eugenics and intelligence they launched legal challenges to the Brown ruling each chronicled here that went to trial but ultimately failed The history Jackson presents speaks volumes about the legacy of racism as we can see similar arguments alive and well today in such books as The Bell Curve and in other debates on race science and intelligence With meticulous research and a nuanced understanding of the complexities of race and law Jackson tells a disturbing tale about race in America     "In ways unacademical" John P. Jackson,2001     *Race and Human Evolution* Milford H. Wolpoff,Rachel Caspari,1997 Race and Human Evolution shows how the debate over the Eve theory reflects a long history of theories about human origins and race that has been fraught with social and political implications
