Edge Excitations of Low-dimensional Charged Systems Oleg Kirichek,2001 Observation of edge magnetoplasmons EMP was one of the most unexpected discoveries in physics of two dimensional electron systems 2DES In contrast to bulk 2DES plasmons with frequencies equal to or larger than the cyclotron frequency the edge magnetoplasmons confine near the edge of 2DES and have a gapless spectrum The possibility of observing EMP in different kinds of 2DES realised in the semiconductor structure on the liquid helium surface or in 2D sheet of ions trapped below the helium surface offers a powerful spectroscopic tool for the study of the general properties of 2DES The main purpose of this book is to outline theoretical concepts and some recently obtained results of experimental investigations of EMP in 2DES The theories presented in this book cover a broad range of intensively studying EMP properties while the experimental part of the book is mainly focused on just a few intriguing results In addition attention is paid to the possible EMP applications

ago journalism wasn't a glamorous profession in India There were only a few reporters driven by a sense of adventure and the willingness to travel the world in search of news Harish Chandola was one such young man who moved from the Garhwal hills to start out as an editorial assistant with the Hindustan Times in Delhi in 1950 Not content with staying in the newsroom he used his annual leave to journey through Tibet on foot just when China was beginning its incursion into the region and was detained by Chinese soldiers for three months In a major scoop he became the first journalist to notice a new kind of Chinese army in Tibet in 1954 Prime Minister Nehru dismissed the report as a figment of Chandola's imagination but it was later discovered that the men were constructing a 1 700 km highway from Lhasa to the Chinese mainland What followed thereafter was a six decade long career in journalism which took him to the frontlines of conflicts in Kenya and Cambodia the Algerian War of Independence and the middle of a military coup in Indonesia Back home he played a role in sensitive

negotiations with underground Naga leaders on Lal Bahadur Shastri's request and was a trusted adviser on some key political issues to Indira Gandhi. *At Large in the World* tells the stories behind the headlines and makes startling disclosures as it paints a compelling and honest portrait of India in eventful times over the last half century. *Snap Shots*, 1925
