1. Recall & Reproduction: Can the student recall a simple fact from the story? Requires a shallow understanding and no analysis.
2. Skills & Concepts: Can the student think beyond recalling a fact? Students may be asked to interpret, infer, classify and categorize, organize, compare & contrast, and determine whether fact or opinion, predict, determine cause & effect, apply, reconstruct or sequence a story.
3. Strategic Thinking: Can the student think beyond the text to his world or another text for an answer, or adapt the text to create something new? Can he explain, generalize, or connect ideas from one text to another? Can he evaluate text, formulate opinions, and then explain them?
4. Extended Thinking: Students take information from multiple sources and are asked to apply this information to a new task that requires complex thinking, usually over time. (Ex. A project-based-learning activity or a research paper.)
