Introduction to Information Systems 10th Edition teaches undergraduate business majors how to use information technology to master their current or future jobs. Students will see how global businesses use technology and information systems to increase their profitability, gain market share, develop and improve their customer relations and manage daily operations. This course demonstrates that IS is the backbone of any business, whether a student is majoring in accounting, finance, marketing, human resources, production, operations management, or MIS. In short, students will learn how information systems provide the foundation for all modern organizations, whether they are public sector, private sector, for profit or not for profit.
