**Media Today** Joseph Turow,2026-03-05 This ninth edition of Joseph Turow's pathbreaking media textbook uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world. It teaches students to think critically about the role of media and what these changes mean for their lives. The book's media systems approach helps students to look carefully at how media content is created, distributed, and exhibited in the new world that the digital revolution has created. From news media to video games and social networking to mobile platforms and streaming, it provides students with the tools they need to understand and critique the media they encounter and consume. The first part examines the media world as a whole while the second delves deep into key media industries such as the movie, television, and video streaming and video game industries. This new edition includes critical expanded coverage of social media economies, cross border media issues, the rise of news influencers and subscription platforms, and the growing use of predictive and generative artificial intelligence, as well as brand new case studies and updated figures, tables, and pedagogy, including key terms and further activities. **Media Today** is an excellent introduction to the world of media in the digital age, perfect for students seeking a solid grounding in media studies. Extensive pedagogical materials also make this a highly teachable book well suited to the classroom. The accompanying website has also been updated with new student and instructor resources including chapter recaps, recommended readings, and instructor's manual.

**Alan B. Albaran**,2023-11-30 This fully updated third edition analyzes the media industries and their activities from macro to micro levels using concepts and theories to demonstrate the role the media plays in the economy as a whole. This textbook breaks new ground through its analysis of the rapidly changing and evolving media economy from two unique perspectives. First, the book explores how media industries function across global, national, household, and individual levels of society. Second, it assesses how key forces such as technology, globalization, regulation, and consumer aspects are constantly evolving and influencing media industries. This new edition incorporates thoroughly updated theory and research, as well as expanded case studies that include examples from international markets such as Asia, Europe, and Latin America. It builds on the contributions of the previous edition by providing new references and current data to define and analyze today's media markets and offers a more expansive assessment of streaming business models, as well as the effects of Covid 19 on the media economy. Written in an accessible style and presenting a holistic global perspective of the role of media in the global economy, the textbook provides crucial insights for students and practitioners of media economics, media management, and media industries.
