Top 100 Windows 8.1 Apps Michael Miller, 2014 Windows 8 and 8.1 are all about the new Modern interface and new full screen Modern apps. There are more than 60,000 Modern apps in the Windows Store so how do you find the ones that are best for you? Here's where to start: Top 100 Windows 8.1 Apps by Michael Miller. As the title implies, this book points out the top 100 Modern Windows apps in ten different categories from games to social media to sports to travel. Use this book to go right to the best apps in every category and discover another couple of hundred honorable mentions worth considering too.

Web Cartography Ian Muehlenhaus, 2013-12-10 Web mapping technologies continue to evolve at an incredible pace. Technology is but one facet of web map creation; however, map design aesthetics and user interactivity are equally important for effective map communication. From interactivity to graphical user interface design, from symbolization choices to animation and from layout to typeface.

Long and Short - 72 Stories by Groww to Unravel Stock Markets Groww, 2025-03-17 The stock market is an exchange mechanism that helps investors buy and sell shares in publicly traded companies. Trades are conducted mostly through electronic means between participants who are remote from each other. The mechanism is an excellent means for businesses to raise capital from investors. This is where Groww comes into the picture. Six days a week, Groww sends a newsletter called Groww Digest to its audience of mostly first-time investors. Monday through Friday, this newsletter reports facts and figures. On Sunday, the facts and figures take a back seat and investor education takes centre stage. The Groww Digest team experimented with various forms of content and found that stories struck a chord with their readers. These stories are almost always non-fiction and aim to deliver a financial lesson to the readers while keeping them entertained. Long and Short is a collection of seventy-two stories sent out every Sunday since winter 2020.

Planning Support Systems: Best Practice and New Methods Stan Geertman, John Stillwell, 2009-05-01 Planning Support Systems: Retrospect and Prospect. It has been nearly twenty years since the term planning support systems (PSS) first appeared in an article by Britton Harris (Harris 1989) and more than ten years since the concept was more broadly introduced in the academic literature (Harris and Batty 1993, Batty 1995, Klosterman 1997). As a result, the publication of a new book on PSS provides an excellent opportunity to assess past progress in the field and speculate on future developments. PSS have clearly become very popular in the academic world. This is the fourth edited book devoted to the topic, following Brail and Klosterman (2001), Geertman and Stillwell (2003), and a third by Brail (2008). Papers devoted to PSS have been published in the leading planning journals, and the topic has become a regular theme at academic conferences around the world. It has even spawned intellectual offspring such as spatial planning and decision support systems (SPDSS) and public participation planning support systems (PP-PSS). However, as Geertman and Stillwell point out in their introductory chapter, the experience with PSS in the world of professional practice has been disappointing. A substantial number of PSS have been developed but most of them are academic prototypes or one-off professional applications that have not been adopted elsewhere.
