writing which explicitly and openly entails the production of ideas while writing This process is fundamentally rhizomatic in that it moves in different directions each time beginning anew from a different point and is ultimately geared toward a multidirectional and multilayered product The emotional aspect in the writer s life is somewhat mystical in nature It is a medium that surrounds writers at all times and enables them to find their voice and their place in the world The writing workspace is perceived as part of this aspect It is a sanctuary that provides inspiration is designed according to the writer s needs and shapes the writing The sociocultural aspect shapes the identity of the writer and highlights social mirroring as part of the writer s positioning in life and in the professional community Intended audience This book is aimed at the community of researchers in the writing domain It is also of interest to academic scholars in higher education who perceive writing as part of their personal and academic identity Qualitative researchers will find interest in the research method and the relations between qualitative genres among them phenomenological and narrative genres
