## **What Technology Wants:**

**What Technology Wants** Kevin Kelly, 2010-10-14 From the author of the New York Times bestseller *The Inevitable* a sweeping vision of technology as a living force that can expand our individual potential. This provocative book introduces a brand new view of technology. It suggests that technology as a whole is not a jumble of wires and metal but a living, evolving organism that has its own unconscious needs and tendencies. Kevin Kelly looks out through the eyes of this global technological system to discover what it wants. He uses vivid examples from the past to trace technology's long course and then follows a dozen trajectories of technology into the near future to project where technology is headed. This new theory of technology offers three practical lessons. By listening to what technology wants we can better prepare ourselves and our children for the inevitable technologies to come. By adopting the principles of pro action and engagement we can steer technologies into their best roles. And by aligning ourselves with the long term imperatives of this near living system we can capture its full gifts. Written in intelligent and accessible language this is a fascinating, innovative and optimistic look at how humanity and technology join to produce increasing opportunities in the world and how technology can give our lives greater meaning.

**What Technology Wants** Kevin Kelly, 2010 Profiles technology as an evolving international system with predictable trends, counseling readers on how to prepare themselves and future generations by anticipating and steering their choices toward developing needs. By the author of *New Rules for a New Economy*

**What Technology Wants (summary)** Kevin Kelly, 2012 *What Technology Wants* Kevin Kelly, 2011-09-27 From the author of the New York Times bestseller *The Inevitable* a sweeping vision of technology as a living force that can expand our individual potential. In this provocative book one of today's most respected thinkers turns the conversation about technology on its head by viewing technology as a natural system, an extension of biological evolution. By mapping the behavior of life we paradoxically get a glimpse at where technology is headed or what it wants. Kevin Kelly offers a dozen trajectories in the coming decades for this near living system. And as we align ourselves with technology's agenda we can capture its colossal potential. This visionary and optimistic book explores how technology gives our lives greater meaning and is a must read for anyone curious about the future.

*The Inevitable* Kevin Kelly, 2016-06-07 A New York Times Bestseller From one of our leading technology thinkers and writers a guide through the twelve technological imperatives that will shape the next thirty years and transform our lives. Much of what will happen in the next thirty years is inevitable driven by technological trends that are already in motion. In this fascinating, provocative new book Kevin Kelly provides an optimistic road map for the future showing how the coming changes in our lives from virtual reality in the home to an on demand economy to artificial intelligence embedded in everything we manufacture can be understood as the result of a few long term accelerating forces. Kelly both describes these

deep trends interacting cognifying flowing screening accessing sharing filtering remixing tracking and questioning and demonstrates how they overlap and are codependent on one another These larger forces will completely revolutionize the way we buy work learn and communicate with each other By understanding and embracing them says Kelly it will be easier for us to remain on top of the coming wave of changes and to arrange our day to day relationships with technology in ways that bring forth maximum benefits Kelly's bright hopeful book will be indispensable to anyone who seeks guidance on where their business industry or life is heading what to invent where to work in what to invest how to better reach customers and what to begin to put into place as this new world emerges     **Citia** Kevin Kelly,Semi-Linear Incorporated,2012
