Answer: a report emerged that Russian military operatives offered to pay Afghan militants to kill coalition forces, including US soldiers. The New York Times also reported that US intelligence briefed the president and vice president about the report. The president, who is also commander-in-chief, is being criticized for not responding to the report in an appropriate manner.

It's worth adding "within two weeks after that briefing, Trump was advocating 'for' Russia at the UN"

## Reddit Update:

**The Dark Social** Toija Cinque,Alexia Maddox,Robert W. Gehl,2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to be belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of Resistance Motility and Power will be a key resource for academics researchers and advanced students of media studies cultural studies communication studies research methods and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies

**The Cryptopians** Laura Shin,2022-02-22 The story of the idealists technologists and opportunists fighting to bring cryptocurrency to the masses In their short history Bitcoin and other cryptocurrencies have gone through booms busts and internecine wars recently reaching a market valuation of more than 2 trillion The central promise of crypto endures vast fortunes made from decentralized networks not controlled by any single entity and not yet regulated by many governments The recent growth of crypto would have been all but impossible if not for a brilliant young man named Vitalik Buterin and his creation Ethereum In this book Laura Shin takes readers inside the founding of this novel cryptocurrency network which enabled users to launch their own new coins thus creating a new crypto fever She introduces readers to larger than life characters like Buterin the Web3 wunderkind his short lived CEO Charles Hoskinson and Joe Lubin a former Goldman Sachs VP who became one of crypto's most well known billionaires Sparks fly as these outsized personalities fight for their piece of a seemingly limitless new business opportunity This fascinating book shows the crypto market for what it really is a deeply personal struggle to influence the coming revolution in money culture and power

**Gaming Democracy** Adrienne L. Massanari,2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies

game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide. These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies. While populist movements are not new phenomena such as QAnon, parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent. Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions. Using the lens of play and game studies as well as the concept of metagaming, Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism.

### **Early America and the Modern Imagination**

Rebecca L. Harrison, Patrick M. Erben, 2025-06-30 Recurring culture war controversies in the US ranging from reproductive freedom and gender identity to racial inequality and immigration often turn public attention to early American precedents. At the same time early American figures and tropes enjoy a stunning cachet in popular culture. Early America and the Modern Imagination squarely interprets the significance and cultural uses of these transhistorical reimaginings of the early American past. While drawing productively on public memory scholarship this volume augments its neglect of early American studies. The collection's critical and pedagogical essays investigate how a variety of modalities including literature, film, television, theatre, video games, and graphic novels rescript early America as a usable past for contemporary audiences. Early America and the Modern Imagination therefore interprets early American themes and their present day echoes to grapple with the evolving and highly contested import of the American nation's past in the present cultural moment.
