BIG Jobs Guide Rachel Levy, Richard Laugesen, Fadil Santosa, 2018-06-29 Jobs using mathematics statistics and operations research are projected to grow by almost 30% over the next decade. *BIG Jobs Guide* helps job seekers at every stage of their careers in these fields explore opportunities in business industry and government. *BIG Written* in a conversational and practical tone, *BIG Jobs Guide* offers insight on topics such as: What skills can I offer employers? How do I write a high impact resume? Where can I find a rewarding internship? What kinds of jobs are out there for me? The Guide also offers insights to advisors and mentors on topics such as: how departments can help students get *BIG jobs* and how faculty members and internship mentors can build institutional relationships. Whether you're an undergraduate or graduate student or a job seeker in mathematics statistics or operations research, this hands-on book will help you reach your goal landing an internship, getting your first job or transitioning to a new one.

The Mathematical Resilience Book Sue Johnston-Wilder, Clare Lee, 2024-06-13 This book is about mathematical resilience: what it is, why it is important, how learners can develop it, and how teachers can teach in ways that help learners become mathematically resilient. *Teaching for mathematical resilience* helps mitigate mathematics anxiety which is often hidden from view as poor behaviour avoidance and underachievement and can have long term implications especially for people's employment opportunities and career progression. Written by a team of expert contributors that specialise in teaching every age of learner from primary school through to adult, the book shows that everyone can progress in mathematics if they have Mathematical Resilience and sets out practical strategies to support learners in developing this important attribute. Chapters cover: How to measure mathematics anxiety and resilience; Tools for building mathematical resilience; Building a resilient mathematical learning environment; The power of coaching; Working with groups, individuals and support staff; Supporting parents and carers. The world faces huge challenges that involve mathematical thinking including climate change and economic injustice. This valuable text shows teachers how they can help learners to engage positively with mathematical learning and reach their full potential.
