like a real spy *Untangling the Web* is the National Security Agency's once classified guide to finding information on the internet. From the basic to the advanced, this 650 page book offers a fascinating look at tricks the real spies use to uncover hidden and not so hidden information online. Chapters include Google hacks, Metasearch sites, Custom search engines, Maps, mapping, Uncovering the invisible internet, Beyond search engines, Specialized research tools, Email lookups, Finding people, Researching companies, A plain english guide to interworking, Internet toolkits, Finding ISPs, Cybergeography, Internet privacy and security, and over a hundred more chapters. This quote from the authors hints at the investigative power of the techniques this book teaches: "Nothing I am going to describe to you is illegal nor does it in any way involve accessing unauthorized data but involves using publicly available search engines to access publicly available information that almost certainly was not intended for public distribution. From search strings that will reveal secret documents from South Africa, filetype xls site za confidential to tracking down tables of Russian passwords, filetype xls site ru login, this is both an instructive and voyeuristic look at how the most powerful spy agency in the world uses Google."
