leftism Some of these philosophers identify explicitly with the political right an admittedly broad term which ranges from American conservative to British Tory from religious right to non religious right from libertarian to authoritarian Yet other dissident philosophers eschew the left right dichotomy altogether while maintaining a firm political distance from the majority of their left leaning colleagues The primary goal of the volume is to represent a broad constituency of political philosophies and perspectives at variance with the prevailing political sentiments of the academy Each essay is partly autobiographical in nature detailing personal experiences that have influenced these philosophers throughout their lives and partly philosophical putting forth reflections on the intellectual viability of a right leaning or decidedly non left leaning political philosophy or some segment of it The contemporary university is supposed to be the locus of viewpoint diversity and yet as is evident to professors students and virtually anyone else who sets foot within its halls it most certainly is not particularly in matters political Nevertheless these essays are not instances of special pleading or grievance incitement Instead each article provides a glimpse into the life of an academic philosopher whose views have largely been at odds with peers and colleagues Furthermore all of the essays were consciously constructed with the aim of being philosophically rigorous while eschewing technical language and verbose prose In short the essays will be enjoyable to a wide audience
