1001 Best Internet Sites for Educators Mark Treadwell, 2001-06 This second edition of a resource designed to help teachers find relevant information on the Internet for both themselves and their students provides concise reviews of more than 1 000 Web sites sorted by subject area. Each site is evaluated with one to five stars for content presentation and grade level. Easy to follow explanations are provided of how each site can be used in the classroom. Also presented are search tips to help teacher find more sites on their own. Besides the rating of Internet sites the book includes information on hardware and software requirements safety on the Internet, plug ins and helpful information such as criteria for site selection and searching the Web. An element called Finding Where You Have Been helps teachers relocate sites they have viewed. Other helpful features are Searching the Web and a Glossary of Terms to familiarize teachers and students with the Internet. The introductory material on Safety on the Internet provides guidelines for teachers. A generic Acceptable Use Policy is also included that is copyright free for schools to adapt to their needs. Recommendations for filtering software are offered for Internet use in places where individual monitoring is not possible such as libraries. Data is provided on an Internet license system in which parents or caregivers sign an agreement for their child to access the Internet. Sites are provided under the following curriculum areas: language arts, mathematics, science, foreign languages, general and professional sites for educators, health and physical education, information and communication, music and performing arts, technology in education and visual arts. Innovative Teaching: Best Practices From Business And Beyond For Mathematics Teachers Denise H Sutton, Alfred S Posamentier, 2021-01-26 Innovative Teaching Best Practices from Business and Beyond for Mathematics Teachers provides educators with new and exciting ways to introduce material and methods to motivate and engage students by showing how some of the techniques commonly used in the business world and beyond are applicable to the world of education. It also offers educators practical advice with regard to the changing culture of education, keeping up with technology, navigating politics at work, interacting with colleagues, developing leadership skills, group behavior and gender differences. Innovative Teaching demonstrates how the classroom environment is similar to the marketplace. Educators like businesses, for example, must capture and hold the attention of their audience while competing with a constant stream of noise. With the introduction of the Internet and the wide use of social media, promoters understand that they must not only engage their audience but also incorporate audience feedback into the promotional work and product or service they offer. Innovative Teaching shows educators how to take the best practices from business and beyond and recombine these resources for appropriate use in the classroom.
