Witchcraft Jennie Woodard, 2025-08-28 From fairy tales and fiction to TikTok, the specter of the witch has cast a long shadow over women and popular culture. *Witchcraft: Gendered Perspectives* traces the history and evolution of the term witch across six centuries. Tracing the history of witchcraft from the publication of the *Malleus Maleficarum* to its contemporary representation and reclamation, this volume takes a gendered and intersectional approach to the cultural and historical shifts which have both demonized and democratized the witch online and in public discourse. Amongst these are the witch trials in Scotland, England, and America; literary and screen reimaginings of the witch; the rise of Wicca as an alternative religion. *Witchcraft: Gendered Perspectives* is an invaluable resource for graduate and undergraduate students across gender studies, queer history, religious studies, media studies, and European and North American history. *The Horticulturist*, 2024
