*Singing Family of the Cumberlands* Jean Ritchie, 1988-08-25 The singing family of which Jean Ritchie writes is that of her parents Balis and Abigail Ritchie and their fourteen children all born and reared in Viper Kentucky deep in the Cumberland Mountains Jean the youngest of the clan grew up to be a world renowned folksinger But she was hardly unique in the family All the Ritchies sang when they worked when they prayed when they rejoiced even when tragedy struck Singing Family of the Cumberlands is both an appealing account of family life and a treasury of American folklore and folksong In the deceptively simple but picturesque language of rural Kentucky Jean Ritchie tells of a way of life now nearly vanished and of a gentle upright people shielded from the outside world by forbidding mountain ranges preserving the traditions of their forebears Foremost among those traditions were the British folksongs brought from England by James Ritchie in 1768 Even in a region noted for its wealth of folksongs the Ritchies inheritance was exceptional Forty two of the family's beloved songs are woven through Jean Ritchie's narrative complete with words and often musical scores Each song evokes a memory for Jean hoeing corn stirring off molasses telling ghost stories singing a dying baby to its eternal rest Songs lightened the burden of poverty for the Ritchies and brought them joy and solace Illustrated by Maurice Sendak Singing Family of the

Benita J. Howell, 2025-12-08 Folklife along the Big South Fork of the Cumberland River records the history, lore, and lifeways of people who once occupied the land that became the Big South Fork national River and Recreation Area The National Park Service sponsored the research in 1979 just as former residents were being displaced from their homes Through oral history interviews and historical records, an ethnographic study, and old time traditions, this book recounts what life was like in the Big South Fork during the first half of the twentieth century when the region's agrarian economy was transformed by the timber and coal industries Howell has added a new introduction and postscript Visitors to the Big South Fork National River and Recreation Area will find this a useful introduction to the area's rich history and culture while genealogists will discover a wealth of information about the region's historic settlements Social scientists will recover valuable insights into the cultural dimensions of environmental impact assessment along with a counter to conventional wisdom that tends to explain Appalachian culture in terms of either psychocultural or environmental determinism The Author Benita J Howell is professor of anthropology and chair of the America Studies Program at the University of Tennessee Knoxville She is the editor of Culture Environment and conservation in the Appalachian South and author of book chapters on cultural heritage
