Watkins,John Paul Weber,2006 This is both a casebook of selected war crime decisions by various national and international tribunals in the twentieth and early twenty first centuries as well as a brief historical account of the geopolitical diplomatic and military events surrounding them The text is divided into six parts arranged in chronological order beginning with the Hague Peace Conferences of 1899 and 1907 up to the Summer 2004 decisions by the Supreme Court of the United States which dealt with transnational terrorism committed by United States citizens as well as the Guantanamo Bay Cuba detainees held under the authority of the Bush Administration War Crimes and War Crime Trials contains edited excerpts from forty four judicial opinions embellished with a congeries of international national military and political documents that add context to the case law The editors have included fairly extensive selections from some of the major materials that have surrounded subsequent war crime litigation Also included are an epilogue by Michael Ignatieff an eleven entry appendix a glossary containing over 200 words a reference section of over 1 400 citations from a wide variety of legal historical and international relations literature and a name and subject index War Crimes and War Crime Trials From Leipzig to the ICC and Beyond Cases Materials and Comments edited by John C Watkins Jr and John Paul Weber is the most complete book on the subjects to date In these challenging times it is an essential reference for all who study or are engaged

in the events brought about by September 11 2001 Frank J Williams Chief Justice of the Supreme Court of Rhode Island and Member of the Military Commissions Review Panel Skillfully edited the book weaves together an eclectic tableau of primary and secondary sources drawn from major court decisions and scholarly commentary over the past century The result is a versatile stand alone text and reference that should appeal to students of law political science criminal justice history and international relations alike CHOICE Magazine     *The Tokyo International Military Tribunal* Neil Boister, Robert Cryer, 2008 The Tokyo International Military Tribunal IMT is not frequently discussed in the literature on international criminal law and it is often thought that it was little more and possibly less than a footnote to the Nuremberg proceedings This work seeks to dispel this widely held belief by showing the way in which the Tokyo IMT was both similar and different to its Nuremberg counterpart the extent to which the critiques of the Tokyo IMT have purchase and the Tribunal's contemporary relevance The book also shows how the IMT needs to be treated not just as one overarching entity but also as being made up of different sets of people who made up the prosecution the defence and the judges These disagreed with each other and at times internally over the way in which the trial should proceed and the book shows how each had an impact on the proceedings The book is a comprehensive legal analysis of the Tokyo IMT covering its law theory practice and the lessons it may teach to those prosecuting and defending international crimes today It also places the trial in its political and historical context The work is based in part of extensive archival research undertaken by the authors which has unearthed large quantities of documents that have previously been ignored by those who have studied the Tribunal     **New Times** ,1947     **Current Law Index** ,2006     **The Trial of German Major War Criminals** International Military Tribunal,1946     The First 3 Days of the Trial Against the Major German War Criminals in Nuremberg, November 1945: 20th November, 1945 to 1st December, 1945 ,1997     **Votes and Proceedings** Great Britain.
