Sixteen Cowries Yoruba Divination From Africa To The New World:

Sixteen Cowries William W. Bascom, 1980-05-22 a landmark in research of African oral traditions African Arts a significant contribution to the understanding of Yoruba religious belief magic and art Journal of Religion in Africa Yoruba texts and English translations of a divination system that originated in Nigeria and is widely practiced today by male and female diviners in the diaspora A landmark edition **Santeria from Africa to the New World** George Brandon, 1993

Introduction to New and Alternative Religions in America William M. Ashcraft, Eugene V. Gallagher, 2006-10-30 Most new or alternative religions are gravely misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context Determining what actually constitutes a new or alternative religion is a subject of constant debate Questions arise as to a new faith's legitimacy beliefs methods of conversion and other facets of a religious movement's viability and place in a given culture How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty tension and fear Here experts delineate the boundaries and examine the various groups beliefs movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People's Temple the Branch Davidians Jehovah's Witnesses and others are examined Volume 3 Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha'i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology

UFO religions and Heaven's Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more

Women and Freedom in Early America Larry Eldridge, 1997 It is virtually impossible to generalize about the degree to which women in early America were free What if anything did enslaved black women in the South have in common with powerful female leaders in Iroquois society Were female tavern keepers in the backcountry of North Carolina any more free than nuns and sisters in New France religious orders Were the restrictions placed on widows and abandoned wives at all comparable to those experienced by autonomous women or spinsters Bringing to light the enormous diversity of women's experience *Women and Freedom in Early America* centers variously on European American African American and Native American women from 1400 to 1800 Spanning almost half a millennium the book ranges the colonial terrain from New France and the Iroquois Nations down through the mainland British American colonies By drawing on a wide array of sources including church and court records correspondence journals poetry and newspapers these essays examine Puritan political writings white perceptions of Indian women Quaker spinsterhood and African and Iroquois mythology among many other topics

Tracing Language Movement in Africa Ericka A. Albaugh, Kathryn M. de Luna, 2018-01-10 Many disciplines study language movement and change in Africa but they rarely interact Here eighteen scholars from a range of disciplines explore differing conceptions of language movement in Africa through empirical case studies

An Ethos of Transdisciplinarity Sanya Osha, 2025-04-01 Toyin Falola's astounding intellectual production must be one of the mysteries in the intellectual world It has transcended the confined world of historical research into broader horizons that include the role of the public intellectual The present study would undertake a rigorous analysis of the origins continuities and discontinuities of this transformation This means we have to recast the debates regarding who is a public intellectual from a multiplicity of discursive situations and historical and cultural contexts We have to employ methodological parallels from North Atlantic intellectual traditions How did the role of the public intellectual emerge in the first place in world intellectual history Addressing this question would enrich this research endeavour immensely In interrogating comparative discursive formations we shall re-evaluate the roles functions and achievements of continental intellectuals such as Bertrand Russell Jean Paul Sartre Andre Malraux Albert Camus Michel Foucault Edward Said Wole Soyinka and Pierre Bourdieu Again this discursive element will give this study a global appeal and range

Animal Sacrifice and Religious Freedom David M. O'Brien, 2004 The Santeria religion of Cuba the Way of the Saints mixes West African Yoruba culture with Catholicism Similar to Haitian voodoo Santeria has long practiced animal sacrifice in certain rites But when Cuban immigrants brought those rituals to Florida local authorities were suddenly confronted with a controversial situation that pitted the regulation of public health and morality against religious freedom After Ernesto Pichardo established a Santeria church in Hialeah in the 1980s the city of Hialeah responded by passing ordinances banning ritual animal sacrifice Although on the surface those ordinances seemed general in intent they were

clearly aimed at Pichardo's church. When Pichardo subsequently sued the city, a federal court ruled in the latter's favor in effect privileging the regulation of public health and morality over the church's free exercise of its religion. The U.S. Supreme Court heard Pichardo's appeal in 1993 and unanimously decided that the city had overstepped its bounds in targeting this particular religious group; however, the court was sharply divided regarding the basis of its decision. Three concurring opinions registered distinctly different views of the First Amendment, the limits of government regulation, and the religious freedom of minorities. In the end, the nine justices collectively concluded that freedom of religious belief was absolute, while the freedom to practice the tenets of any faith were subject to non-discriminatory local regulations.

David O'Brien, one of America's foremost scholars of the Court, now illuminates this controversy and its significance for law, government, and religion in America. His lively account takes us behind the scenes at every stage of the litigation to reveal a riveting case with more twists and turns than a classic whodunit. Ranging with equal ease from primitive magic to municipal politics and to the most arcane points of constitutional law, O'Brien weaves a compelling and instructive tale with a fascinating array of politicians, lawyers, jurists, civil libertarians, and animal rights advocates. Offering sharp insights into the key issues and personalities, he highlights cultural clashes, large and small, while maintaining a balance for both the needs of government and the religious rights of individuals. The *Santeria* case reaffirmed that our laws must be generally applicable and neutral and may not discriminate against particular religions. Tracing the path to that conclusion, *Animal Sacrifice and Religious Freedom* provides a provocative and learned account of one of the most unusual and contentious religious freedom cases in American history.

Myth, Ritual, and Visible Expressions of Obàtálá and Olókun in Ilé-Ife` Oluwafunminiyi Wasiu Raheem, Ayowole S. Elugbaju, 2024-10-29. This book fills a gap in Yorùbá history and religion to provide an extensive analysis of two deities, Obàtálá and Olókun. Drawing from oral accounts, chants, folk songs, praise poems, and verses from the Ifá corpus, the authors provide new insights into the worlds of both deities hitherto missing in the literature.
