The Lineback To My Beginning Walt Lineback, 2013-11-21 Walt was born in Nelsonville a small town in southeastern Ohio whose population has been around 5 000 for the last hundred years In this book he tells us about many extraordinary events that he survived from the age of three to eighteen while growing up in Nelsonville Like the time he almost drowned in the creek below their home on 969 Pleasant View Avenue Or taking rabies shots when their pet dogs got rabies from a pack of wild dogs that roamed the hills on the other side of the valley Or surviving car wrecks when the cars were totaled and there were no seat belts then He graduated from NHS in 1960 in a class of 56 so you knew everyone and everyone knew you and your business You didn't do anything without the whole town finding out very quickly what happened So when he broke the taillight in his Dad's car Dad knew about it before he got home Or when he drove that same car and took his girl friend all the way to Columbus to the Kahiki Supper Club for dinner one time and ruined his older brother's white sport coat and Tanya's new dress when an orange fountain exploded while they waited in the Kahiki's crowded lobby somehow people knew about the incident by the time they got back to Nelsonville They quickly told a story to their friends first then their parents that some kid sprayed orange soda all over them at the high school dance that evening And the best part of that adventure was that the dinner was free if they didn't take the free dry cleaning offer from the Kahiki That is the way small towns were back then Walt went on to work his way through Ohio University and eventually earned three degrees from there and a Master's Degree from the University of Dayton in 1980 Walt's adventures after finishing High School in 1960 like Ohio University the party school Western Electric in Columbus and the Army and Vietnam are in his next book **The Second Eighteen Plus**

The Conscious Teacher Deborah Nichols Poulos, 2020-01-13 The Conscious Teacher is about all kinds of strategies and techniques educators might employ to become more effective teachers In an accessible conversational style Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike She begins with her personal story of not being able to read all through elementary school Her early failures convinced her she was dumb At first she struggled but when she still failed she adopted an avoidance strategy that served her well until junior high An experience in the seventh grade flipped a switch and started her on a journey to becoming an outstanding student and later to applying the lessons she learned as a child to her own teaching What makes The Conscious Teacher unique are the inspirational lessons that are unlike what most teachers get in their teacher education courses or student teaching Ms

Nichols Poulos points out for example that from the very first day it is important that students learn they will be treated with dignity and respect no matter what And especially helpful are the steps Ms Nichols Poulos employs to set up a behavior management plan that works She explains the strategic steps she takes before school starts how essential it is to get to know each student before they walk into class on that first day She also illustrates how setting up classroom routines helps students know what to expect and how to make the best use of every minute And she emphasizes the importance of the parent student teacher team and includes many examples of how to communicate with and involve parents even those who may be difficult Foundational to her program are reading and writing Among other things she lays out the steps for students even as early as fourth grade to write five paragraph essays and their own student authored books and to research and write reports that include bibliographies When she differentiated curriculum to support all students needs she found their learning accelerated All teachers will appreciate her ideas about how to teach the basics of math as well as advanced math concepts And her ideas for teaching the arts are inspirational as she describes in detail how her fourth graders performed Shakespeare s Hamlet Macbeth King Lear Julius Caesar and A Midsummer Night s Dream She also shows how to integrate social studies with literature and writing Her experiences taught her that young students are much more capable than many people realize The Conscious Teacher is an indispensable guide for all new teachers Many of the ideas Ms Nichols Poulos provides will also be an eye opener for parents and experienced teachers as well The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling
