*Critical Perspectives on Linguistic Fixity and Fluidity* Jürgen Jaspers, Lian Malai Madsen, 2019-01-15 This volume offers a critical perspective on current views on linguistic fixity and fluidity in sociolinguistics and highlights empirical accounts alternative to prevailing trends in the field Featuring accounts from a broad range of regional contexts the collection takes stock of such terms as polylingualism metrolingualism and translanguaging to question perceptions around multilingual and monolingual language use The book critiques the status of fluid language use as a more natural language practice and in turn its greater potential for corresponding social transformation demonstrating the value of linguistic fixity and the continuous debate between fixity and fluidity in multilingual speakers lives In providing these accounts the book seeks not to advocate for linguistic fixity or fluidity but to argue that sociolinguists pay close attention to the way both types of linguistic practice open up or close down avenues for social transformation This collection is a key reading for graduate students and scholars in sociolinguistics multilingualism and linguistic anthropology **Time** Briton Hadden, Henry R.
