Sisters in Law Virginia G. Drachman, 1998 More than any other profession women entered in the nineteenth century law was the most rigidly engendered Access to courts bar associations and law schools was controlled by men while the very act of gaining admission to practice law demanded that women reinterpret the male constructed jurisprudence that excluded them This history of women lawyers from the 1860s to the 1930s defines the contours of women's integration into the modern legal profession Nineteenth century women built a women lawyers movement through which they fought to gain entrance to law schools and bar associations joined the campaign for women suffrage and sought to balance marriage and career By the twentieth century

most institutional barriers crumbled and younger women entered the law confident that equal opportunity had replaced sexual discrimination. Their optimism was misplaced as many women lawyers continued to encounter discrimination faced limited opportunities for professional advancement and struggled to balance gender and professional identity. Based on rich and diverse archival sources, this book is the landmark study of the history of women lawyers in America. Lawyers as Leaders Deborah L. Rhode, 2013-08-02 Why do we look to lawyers to lead and why do so many of them prove to be so untrustworthy and unprepared? In Lawyers as Leaders, eminent law professor Deborah Rhode not only answers these questions but crafts an essential manual for attorneys who need to develop better leadership skills. **The First Women Lawyers** Mary Jane Mossman, 2006-05-30 Comparative study exploring the lives of the women who challenged male exclusivity in the legal professions in the late 19th and early 20 centuries. Judge Faye Sanders Martin Rebecca Shriver Davis, Sandra J. Peacock, 2004 On a cold winter day in the midst of the Depression, the hardworking wife of a farmer and Primitive Baptist preacher in South Georgia gave birth to her 11th child, a daughter named Faye. Money was scarce, times were hard, and from the moment she could walk, Faye worked doing whatever it took to keep the ninety-acre farm going. No one could have predicted that this little girl would grow up to be the first woman attorney in the country, the first woman appointed to the Georgia Superior Court bench and the first woman chief superior court judge in Georgia. In the rural South of the 1930s, most little girls were fated to be wives and mothers. But despite Faye's preferences for boyish activities, she was greatly influenced by her mother. Though her mother Addie Lou was relatively uneducated and was married when she was only 13 years old, she had a deep respect for school and she urged young Faye to keep up with her homework as well as her chores. Imbued with her mother's regard for learning, Faye Sanders never missed a day of school. Once Faye was graduated and had taken a job as a secretary with a local attorney, she realized she wanted more out of life. Thus began a journey that would take her to law school, a law partnership, and eventually a Superior Court bench. This biography focuses on the life and times of a woman who overcame the initial obstacles of gender and poverty and the later challenges of alcoholism to become the first woman attorney in Bulloch County, the first woman appointed to the Georgia Superior Court bench, the first woman chief superior court judge in Georgia, and the first mother to swear in her own daughter as an attorney in Georgia. **A Nation of Laws** Peter Charles Hoffer, 2010 An introduction to and meditation on the key concepts, history, evolution, complexities, and importance of law in our nation's 233-year existence. *Journal of Women's History*, 1999 **Roe v. Wade** N. E. H. Hull, Peter Charles Hoffer, 2010 This up-to-date history of *Roe v. Wade* covers the complete social and legal context of the case that remains the touchstone for America's culture wars. Working Out Gender Margaret Walsh, 2017-03-02 *Working Out Gender* brings together leading scholars and young researchers to examine the various ways in which gender is currently being used in labour history. Having been a dynamic and contentious category of historical analysis since the mid-1980s, gender continues to incite much debate. This volume seeks a more informed view about labour

history both by advancing the position of women and making their lives central to learning and by examining men as gendered persons and discussing the social construction of masculinity A broad perspective of labour history is scrutinised on both sides of the Atlantic though the emphasis is given to European experiences Themes examined include work and workplace activities the working classes masculinity and politics and the timespan ranges from the eighteenth century to recent times
