**Eugene O'Neill's Philosophy of Difficult Theatre** Jeremy Killian,2022-03-02 Through a close re examination of Eugene O'Neill's oeuvre from minor plays to his Pulitzer winning works this study proposes that O'Neill's vision of tragedy privileges a particular emotional response over a more rational one among his audience members In addition to offering a new paradigm through which to interpret O'Neill's work this book argues that O'Neill's theory of tragedy is a robust account of the value of difficult theatre as a whole with more explanatory scope and power than its cognitivist counterparts This paradigm reshapes our understanding of live theatrical tragedy's impact and significance for our lives The book enters the discussion of tragic value by way of the plays of Eugene O'Neill and through this study Killian makes the case that O'Neill has refused to allow Plato to define the terms of tragedy's merit as the cognitivists have He argues that O'Neill's theory of tragedy is non cognitive and locates the value of a play in its ability to trigger certain emotional responses from the audience This would be of great interest to students and

scholars of performance studies literature and philosophy  
**Seneca - Six Tragedies** Lucius Annaeus Seneca,2016 Seneca's plays are the product of a sensational frightening and oppressive period of history Tutor to the emperor Nero Seneca lived through uncertain and violent times and his dramas depict the extremes of human behaviour Rape suicide child killing incestuous love madness and mutilation afflict the characters who are obsessed and destroyed by their feelings Passion is constantly set against reason and passion wins out Seneca forces us to think about the difference between compromise and hypocrisy about what happens when emotions overwhelm judgement and about how if at all a person can be good calm or happy in a corrupt society and under constant threat of death

*Gender and Identity in Franz Grillparzer's Classical Dramas* Alicia E. Ellis,2021-06-10 In this provocative work Alicia E Ellis provides readings of Franz Grillparzer's dramas as proto feminist formulations of female figures who refuse the gendered constraints of the ancient world The revisionist perspectives of the tragedies recover a latent feminist impulse in the stories of Sappho Medea and Hero as identities marked by linguistic refusals Activating new ideas of narrative experience Ellis transports the figure of the female to the seat of language testimony and presence Inflected by a taut impasse with a culture not produced to include female speech Ellis shows how Grillparzer's adaptations of classical materials offer a working theory about the ways in which new forms of language highlight female energy around autonomy and agency providing a corrective to previous cultural practices A failure to comply with social and political norms demonstrates how the three assessed and then resolved exclusionary acts through rebellious discursive performances that frame how contested identities can be thought and reformulated Readings in this study draw from the work of Sara Ahmed and Judith Butler on cultural framing and cultural translation in contemporary feminist critique Ahmed and Butler direct attention to the language of the texts what they mean and how they produce that meaning

*Guilt and Extenuation in Tragedy* Edward Forman,2020-11-04 This comparative literary study re evaluates the reciprocal relationship between tragic drama and current approaches to guilt and extenuation Focussing on Racine but ranging widely it sheds original light on tragic archetypes Phaedra Oedipus Clytemnestra Medea and others through the lenses of performance theory and modern attitudes towards blame Tragic drama and legal systems both aim to evaluate the merits of excuses provided on behalf of perpetrators of catastrophic acts Edward Forman wittily and provocatively explores modern judicial concepts diminished responsibility provocation trauma ignorance scapegoating through the responses of characters in tragedy Attention is paid to the way in which classical plays ancient Greek and seventeenth century French have been re interpreted in performance in the light of modern perceptions of human responsibility and helplessness
