Sixteenth Century Europe Expansion And Conflict Palgrave History Of Europe:

Sixteenth Century Europe Richard MacKenney, 1993-08-17 Few periods of a hundred years have held the imagination as much as the period 1500-1600. At least four great themes Renaissance, Reformation, Counter Reformation, and Expansion vie for dominance. The decisive cultural theme of the fifteenth century classical revival in Italy had spread and diversified the social structures of the Ancien Régime, which were yet to solidify. This study examines the symptoms of expansion, population growth, adventure overseas, new voyages of the imagination, and the areas of conflict the world and the spirit the public and private spheres, elite and popular cultures, and argues that spiritual quest and intellectual curiosity had the same cultural roots.

Becoming a Queen in Early Modern Europe Katarzyna Kosior, 2019-03-18 Queens of Poland are conspicuously absent from the study of European queenship, an absence which together with early modern Poland's marginal place in the historiography results in a picture of European royal culture that can only be lopsided and incomplete. Katarzyna Kosior cuts through persistent stereotypes of an East-West dichotomy and a culturally isolated early modern Poland to offer a groundbreaking comparative study of royal ceremony in Poland and France. The ceremonies of becoming a Jagiellonian or Valois queen analysed in their larger European context illuminate the connections that bound together monarchical Europe. These ceremonies are a gateway to a fuller understanding of European royal culture, demonstrating that it is impossible to make claims about European queenship without considering eastern Europe.

War in International Society Lacy Pejcinovic, 2013-04-12 Is war an institution of international society and how is it constituted as such across the evolution of international society? This book is an inquiry into the purpose of war as a social institution as originally put forward by Hedley Bull. It offers a comprehensive examination of what is entailed in thinking of war as a social institution and as a mechanism for order. Since the terrorist attacks of 9/11, the subject of war has become increasingly relevant with questions about who can wage war against whom, the way war is fought, and the reasons that lead us to war, exposing fundamental inadequacies in our theorisation of war. War has long been considered in the discipline of International Relations in the context of the problem of order. However, the inclusion of war as an institution is problematic for many. How can we understand an idea and practice so often associated with coercion, destruction, and disorder as contributing to order and coexistence? This study contends that an understanding of the core elements that establish the character of war as an institution of modern international society will give us important insights into the purpose of war in contemporary international relations. This groundbreaking book will be of strong interest to students and scholars of international relations, international relations theory, the English school, security studies, and warfare.

The Political Theology of European Integration Mark R. Royce, 2017-06-27 This book traces the connections between diverging postwar European integration policies and intra-Christian divisions to argue that supranational integration originates from Roman Catholic internationalism and that resistance to integration conversely is based in Protestantism. Royce supports this thesis through a rigorously supported

historical narrative arguing that sixteenth century theological conflicts generated seventeenth century constitutional solutions which ultimately effected the political choices both for and against integration during the twentieth century Beginning with a survey of all ecclesiastical laws of seventeen West European countries and concluding with a full discussion of the Brexit vote and emerging alternatives to the EU this examination of the political theology surrounding the European Union will appeal to all scholars of EU politics modern theology religious sociology and contemporary European history
