Bulger, Duane P. Schultz, Sydney Ellen Schultz, 2025-03-26 This key textbook introduces students to the field of industrial and organizational psychology explaining how industrial organizational psychologists make work and working better It explains how industrial organizational psychologists help organizations hire the best people make work safer and less stressful and support managers and leaders to be more effective at leading others It also describes how industrial organizational psychologists work with organizations to embrace diversity in the workforce design the physical

work environment to best suit employees and market their products and services to consumers Key features of this edition include Coverage of both the essential and traditional I O topic areas such as job analysis employee selection and work motivation as well as topic areas that are important in workplaces today such as stress and well being human factors and preparing for jobs of the future New or expanded coverage of teams in organizations remote hybrid work quiet quitting and diversity equity and inclusion issues A streamlined methods chapter that focuses more on specific methods used by industrial organizational psychologists such as focus groups surveys and Gallup polls Rich with various pedagogical tools and real world examples the book will be of interest to undergraduate students in introduction industrial organizational psychology or psychology of work behaviour courses

Dangerous Technologies Brandaan Huigen, 2025-11-10 Dangerous Technologies focuses on the prevalent theft of consumer electronics in post Apartheid South Africa Through a material culture perspective it explores why these objects have commonly been targeted by bandits and subsequently circulated through the criminal underground The author traces ethnographically how devices travel between various social spheres delving into the experiences of a range of individuals from diverse residents who fall victim to criminals to the bandits who steal electronics for money or drugs the African migrants who export consignments of stolen electronics to their home countries the envious residents who buy stolen electronics and finally the police attempting to grapple with the problem Dangerous Technologies suggests that electronics have widened digital divides between citizens resulting in underground circuits that seek to violently redistribute enviable electronics to low income residents who have not been able to formally participate in electronics consumption and use Due to porous borders the widespread theft and redistribution of electronics do not only stem from internal inequalities within South African society but also from broader disparities across the African continent The book furthers knowledge about how and why particularly modern electronics have precipitated violent property crime in democratic South Africa It is relevant to scholars of social and cultural anthropology particularly those with an interest in material culture digital anthropology and economic and political anthropology as well as criminologists
