**In Theaters Everywhere** Brian Hannan,2019-01-09 Conflicts among Hollywood studios and exhibitors have been going on for years At their heart are questions about how films should be released where when and at what speed Both sides of this disagreement are losers with exhibitors using the law via various Consent Decrees and studios retaliating by tightly controlling output In the Silent Era movies were not released nearly as widely as they are now This book tells the story of how the few became the many It explores the contraction of the release cycle the maximization of the marketing dollar and the democratization of consumer access It also offers a comprehensive list of wide releases and rebuts much of what previous scholars have found Box Office ,1958 *From Option to Opening and Updated* Donald C. Farber,2005-07-01 For the potential as well as the professional producer and for writers actors directors and investors this book is for anyone wanting or needing to understand the process of producing Off Broadway plays from start to finish Written in crisp clear nonlegal language that the layman can easily understand every page reflects the experience and expertise of Farber a well known and highly respected theatrical attorney The book contains detailed information on how to option a property raise money obtain a theater deal with the cast and other personnel the art of negotiation partnerships and co production agreements and much more Especially useful are the updated and expanded appendixes which include all new budgets and actual examples of today s commonly used legal forms and contracts Theatre Magazine ,1904 Hollywood's Embassies Ross Melnick,2022-04-26 Winner 2024 Culbert Family Book Prize International Association for Media and History Winner 2022 Richard Wall Memorial Award Theatre Library Association Beginning in the 1920s audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies These theaters aimed to provide a quintessentially American experience Outfitted with American technology and accoutrements they allowed local audiences to watch American films in an American owned cinema in a distinctly American way In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo Ross Melnick considers these movie houses as cultural embassies He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging selling American ideas

products and power especially during fractious eras Melnick demonstrates that while Hollywood's marketing of luxury and consumption often struck a chord with local audiences it was also frequently tone deaf to new social cultural racial and political movements He argues that the story of Hollywood's global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization Instead it is one of negotiation booms and busts successes and failures adoptions and rejections and a precursor to later conflicts over the spread of American consumer culture A truly global account Hollywood's Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U.S. soft power
