her home and is making more money than she'd ever imagined and is ready to help other people of color access stock knowledge and achieve financial success. As a proud Latina, Garcia understands that building wealth can mean more than stepping into financial arenas historically kept from communities of color. It may first require getting to the root of our money wounds: the factors and experiences that limit our capacity to feel deserving of wealth and capable of building it. In this investing playbook, she guides you on how to establish a budget, create your opportunity fund, and pay yourself first. She shows you how to analyze a company, choose the right stocks for you, and create a plan to multiply your money. You'll learn what it means to invest where your money goes and how to read stock charts. How to assess companies, pick your first stock, and buy your first shares. Tactics to break free from a scarcity mindset and grow your stocks to create life-changing wealth. Complete with an accessible glossary of stock market terms, *Wealth Warrior* is a true primer on how to generate the wealth you deserve.

AI Contexting Clement A. Ogaja, 2025-09-28
AI Contexting: Making Use of Artificial Intelligence introduces the concept of Context Engineering in AI applications with practical use case examples for Generative AI. It is the process of providing an AI system with the necessary contextual information or prompts to understand and respond appropriately to a specific task or situation. It goes beyond simply providing a prompt aka prompt engineering and ensures that an AI system has a comprehensive understanding of the context to deliver accurate and helpful results. This book is your companion for knowledge and awareness of the importance of having the right AI usage skills for enhanced user experience, improved accuracy and relevance of results, efficiency and productivity, time and cost savings, profitability, and increased trust and reliability in the use of AI tools. It covers the do's and don'ts and the limitations while also giving examples and scenarios on how to use AI for 1. finding solutions, 2. boosting efficiency and productivity, 3. boosting profitability for business owners, 4. education, learning and training, 5. research and data science, 6. job hunting and related tasks, 7. AI-powered search.
