Nhl Opening Night 2025:

Sports Business Management George Foster, Norm O'Reilly, Antonio Dávila, 2026-02-25 This new edition of a popular and accessible textbook equips students with a comprehensive understanding of the sport industry. With a focus on management strategy, marketing and finance, the decision making approach of the book emphasizes key concepts while translating them into practice. Content specific to each of the vital stakeholders in the sport business is included. Foster, O'Reilly and Dávila present a set of modular chapters supported with international examples. The book includes content about sport organizations such as the Olympic Games, FIFA World Cup, the European Premier Leagues and Major North American Professional Sport Leagues. This is an ideal textbook for upper level undergraduate and postgraduate students of sports business and management.

Draft Day Doug MacLean, Scott Morrison, 2024-10-15 Doug MacLean, former NHL coach, general manager, team president and one of the game's biggest personalities, reveals how teams build for greatness or fail to on hockey's most anticipated day. A Moneyball for hockey, The NHL draft is a critical time for teams when the foundation for future championships is laid or when championship dreams die. Only time will tell if a draft is successful but a failed draft can severely set teams back for seasons to come. Much to the dread of ownership, management and most importantly the fans. For even the most die-hard hockey fan, the preparation for draft day is a black box. Former president, general manager and coach Doug MacLean takes readers behind the scenes from the 2022 draft in Montreal to revealing draft stories from the past to show how players are discovered and evaluated to create successful teams. Just as Moneyball illustrated the value of analytics in building teams in baseball and beyond, Draft Day shows the careful considerations that go into assessing talent for success. What is that balance in today's game between metrics and instinct between analytics and traditional scouting? MacLean draws from his own career as well as anecdotes from across the league to illustrate the hard-won lessons and principles that lead to building successful teams. Hockey is big business and this book is an invaluable resource for any leader seeking an edge for building resilient organizations. Entertaining and informative, with never-before-told details from some of the biggest moments in NHL history, Draft Day is for every hockey fan who wonders how their team develops that hard-to-define winning chemistry or fails to year after year.

Statistics Robin H. Lock, Patti Frazer Lock, Kari Lock Morgan, Eric F. Lock, Dennis F. Lock, 2025-12-16 Statistics: Unlocking the Power of Data, 4th Edition with corequisite support content is designed for an introductory statistics course focusing on data analysis using real world data and applications. Students use simulation methods to effectively collect, analyze, and interpret data to draw conclusions. Randomization and bootstrap interval methods introduce the fundamentals of statistical inference, bringing concepts to life through authentically relevant examples. More traditional methods like t-tests, chi-square tests, etc. are introduced after students have developed a strong intuitive understanding of inference through randomization methods. While any popular statistical software package may be used, the authors have created StatKey to perform simulations using data sets and examples from the text. A variety of videos, activities,
