

Student Loan Repayment

Choose a repayment plan

Setting up a payment plan may help you avoid missing a payment and could potentially save you money on interest [i]

ex. Auto-payments or Income-Based Repayment (IBR)

Look into loan consolidation

- Simplifies your repayment process by combining some loans into one bill
- May lower your monthly payments by giving you up to 30 years to repay your loans [ii]

Loan Deferment and Forbearance

- Allows you to temporarily postpone or reduce your payments
- If you qualify for deferment, you will not need to make payments during this time period.
- With forbearance, interest will still accrue on subsidized and unsubsidized loans.

Education and Student Performance? Erik Canton,Andreas Blom,2004 Financial aid to students in tertiary education can contribute to human capital accumulation through two channels increased enrollment and improved student performance Canton and Blom analyze the quantitative importance of both channels in the context of a student loan program SOFES implemented at private universities in Mexico With regard to the first channel enrollment results from the Mexican household survey indicate that financial support has a strong positive effect on university enrollment Given completion of upper secondary education the probability of entering higher education rises 24 percent The authors use two data sources to investigate the second channel student performance They analyze administrative data provided by SOFES using a regression discontinuity design and survey data enable them to perform a similar analysis using a different control group Empirical results suggest that SOFES recipients show better academic performance than students without a credit from SOFES However the results cannot be interpreted as a purely causal impact of the student loan program since the impacts also could reflect self selection of students Abstract **Kiplinger's Personal Finance Magazine** ,2006-02 **U.S. News & World Report**
