Google Maps Prices:

Pricing and Revenue Optimization Robert L. Phillips, 2021-05-18 This book offers the first introduction to the concepts theories and applications of pricing and revenue optimization. From the initial success of yield management in the commercial airline industry down to more recent successes of markdown management and dynamic pricing the application of mathematical analysis to optimize pricing has become increasingly important across many different industries. But since pricing and revenue optimization has involved the use of sophisticated mathematical techniques the topic has remained largely inaccessible to students and the typical manager. With methods proven in the MBA courses taught by the author at Columbia and Stanford Business Schools this book presents the basic concepts of pricing and revenue optimization in a form accessible to MBA students MS students and advanced undergraduates. In addition managers will find the practical approach to the issue of pricing and revenue optimization invaluable. With updates to every chapter this second edition covers topics such as estimation of price response functions and machine learning based price optimization. New discussions of applications of dynamic pricing and revenue management by companies such as Amazon Uber and Disney and in industries such as sports theater and electric power are also included. In addition the book provides current coverage of important applications such as revenue management markdown management customized pricing and the behavioral economics of pricing.
