Monthly Catalog of United States Government Publications, 2004 *The Report: Saudi Arabia 2023* Oliver Cornock, Saudi Arabia's dynamic economy is poised for growth driven by its Vision 2030 diversification agenda The Kingdom aims to transform its industries stimulate innovation and solidify its global position The country's commitment to modernise its energy sector targeting 650 GW of renewable energy by 2060 signals a promising future characterised by economic diversification and prosperity

Increasing Persistence Wesley R. Habley, Jennifer L. Bloom, Steve Robbins, 2012-09-04 INCREASING PERSISTENCE Of all the books addressing the puzzle of student success and persistence I found this one to be the most helpful and believe it will be extremely useful to faculty and staff attempting to promote student success The authors solidly ground their work in empirical research and do a brilliant job providing both an overview of the relevant literature as well as research based recommendations for intervention GAIL HACKETT PH D provost and executive vice chancellor for academic affairs professor counseling and educational psychology University of Missouri Kansas City Research indicates that approximately forty percent of all college students never earn a degree anywhere any time in their lives This fact has not changed since the middle of the 20th century Written for practitioners and those who lead retention and persistence initiatives at both the institutional and public policy levels Increasing Persistence offers a compendium on college student persistence that integrates concept theory and research with successful practice It is anchored by the ACT's What Works in Student Retention WWISR survey of 1 100 colleges and universities an important resource that contains insights on the causes of attrition and

identifies retention interventions that are most likely to enhance student persistence. The authors focus on three essential conditions for student success: students must learn, students must be motivated, committed, engaged and self-regulating, and students must connect with educational programs consistent with their interests and abilities. The authors offer a detailed discussion of the four interventions that research shows are the most effective for helping students persist and succeed: assessment and course placement, developmental education initiatives, academic advising, and student transition programming. Finally, they urge broadening the current retention construct providing guidance to policy makers, campus leaders, and individuals on the contributions they can make to student success.

Entanglements and Ambivalences Hongwei Bao, Daniel H. Mutibwa, 2025-02-18. This book explores the media and cultural exchanges between Africa and China in the twenty-first century against the backdrop of the rise of Africa and China in global geopolitics. It situates these cultural encounters in historical and contemporary contexts and through the critical lens of the Global South. It identifies a rising Global South consciousness despite lingering historical entanglements and emotional ambivalences that continue to characterise Africa-China relations. Bringing together scholars from various disciplines and from different parts of the world, this book examines a wide range of cultural expressions such as arts literature, translated works, traditional and digital media artefacts and services, and film festivals. It also interrogates emerging cultural interactions, experiences, and practices engendered by the increasingly digitalised information and communication technology infrastructure underpinning Africa-China connections and links. In doing so, the book contributes to a more nuanced understanding of Africa-China relations today and the concept of the Global South.
