It's been six months since the end of the *Gambit*. Instead of winning an impossible wish, Ross has the threat of her family's execution hanging over her head. Devroe, the only person Ross thought she could trust, could wish the Quests into oblivion at any time. Shockingly, despite his betrayal, Devroe is still making a play for Ross's heart as the two work together pulling jobs for the Organization. But Ross has learned her lesson: A Quest can only trust another Quest. When Ross finds herself at the center of a power struggle within the Organization, she sees her chance to change her fortunes. As a new, deadly *Gambit* develops for control of the criminal underworld, Ross strikes a risky deal to guarantee protection for herself and her family. In this final clash, Ross will square off against a ruthless opponent who will stop at nothing to seize power and, in their corner, will be not only Devroe but his mother, who wants to destroy the Quests at any cost. The new *Gambit* takes Ross and her crew into the intoxicating casinos of Monte Carlo and across treacherous snow-covered slopes in Antarctica as Ross competes against Devroe in a fight for her life. **Chronicles of Care: A Design History of the COVID-19 Virus** Paul A. Rodgers,Fernando Galdon,Craig Bremner,2024-04-16 The Covid 19 crisis and the designed interventions that the authors have catalogued in this book prove

definitively that design does care. The authors documented this as it evolved every day from the 1st January 2020 to 31st May 2020 inclusive. Then they looked at all of this care and caring from the point of view of design and by the sheer volume of design interventions they have documented illustrate that design is good in a crisis. What the Covid 19 pandemic illustrated is that for the first time in modern history capital was totally irrelevant. Money could not save your life. Only design could. Rapidly designed masks, shelters, hospitals, instructional posters, infographics, dashboards, respirators, sanitisers, virtual and local communities emerged to save us. From January 2020 design became king. The Covid 19 global pandemic presented an ontological reality. Design is more than margins or profit. In fact, design became extremely valuable when it stopped concentrating on those things and started to care about peoples' lives. This brief episode in history is still repositioning the status of design and reconfiguring its signifier from consumption to care. The contents of this book cover the outbreak, lockdown and the beginning of the reopening in the UK. In between the book functions as a history of pandemic crisis design interventions. As such it is a research in the moment project where we have illustrated our thoughts and insights in tables, charts and diagrams. We have accepted all design interventions as valid and given them the same role and status by presenting each of them in a standard format. No curation. No selection. No position. The task of critical analysis must follow perhaps by us certainly by others.
