Trust and Records in an Open Digital Environment Hrvoje Stančić, 2020-12-30 Trust and Records in an Open Digital Environment explores issues that arise when digital records are entrusted to the cloud and will help professionals to make informed choices in the context of a rapidly changing digital economy. Showing that records need to ensure public trust especially in the era of alternative truths this volume argues that reliable resources which are openly accessible from governmental institutions e services archival institutions digital repositories and cloud based digital archives are the key to an open digital environment. The book also demonstrates that current established practices need to be reviewed and amended to include the networked nature of the cloud based records to investigate the role of new players like cloud service providers CSP and assess the potential for implementing new disruptive technologies like blockchain. Stančić and the contributors address these challenges by taking three themes state citizens and documentary form and discussing their interaction in the context of open government open access recordkeeping and digital preservation. Exploring what is needed to enable the establishment of an open digital environment Trust and Records in an Open Digital Environment should be essential reading for data information document and records management professionals. It will also be a key text for archivists librarians professors and students working in the information sciences and other related fields.

Information Technology Law Andrew Murray, 2016 Information Technology Law is the ideal companion for a course of study on IT law and the ways in which it is evolving in response to rapid technological and social change. The third edition of this ground breaking textbook develops its unique examination of the legal processes and their relationship to the modern information society. Charting the development of the rapid digitization of society and its impact on established legal principles Murray examines the challenges faced with enthusiasm and clarity. Following a clearly defined part structure the text begins by defining the information society and discussing how it may be regulated before moving on to explore issues of internet governance privacy and surveillance intellectual property and rights and commerce within the digital sphere. Comprehensive and engaging Information Technology Law takes an original and thought provoking approach to examining this fast moving area of law in context. Online Resource Centre The third edition is supported by a range of online resources including An additional chapter on Virtual Environments Audio podcasts suitable for revision Updates to the law post publication A flashcard glossary of key terms and concepts Outline answers to end of chapter questions A link to the author's blog The IT Lawyer Web links.

Trust Funnel Brian G. Johnson, 2015-02-03 How does a dyslexic college dropout become an Internet marketing guru living a life of wealth and freedom many people only dream of? Answer by seeing a need and filling it. When his dad purchased a shiny new Apple 2E in 1983 it didn't take long for Brian G. Johnson to discover video games. He was hooked. However what really blew him away was what he discovered several years later the Internet. Brian knew it would completely change how and where people spent their money. Most of all it would level the playing field for average folks.

allowing them to cash in as it reached the masses Trust Funnel is one part memoir three parts how to manual for anyone seeking the freedom to work when and where they want as they build an Internet marketing business on a shoestring budget Inspired by Zig Ziglar it examines how the Web and online success revolve around trust and the acts of listening liking trusting buying Trust can be found in many places online It can be found among site visitors who decide to like a page or post It can be found in another selfie that appears on someone's Facebook newsfeed And it can be found in the complex algorithms that power Google rankings Facebook and the various other social sites Gone are the days of links Google page rankings and Facebook's EdgeRank Today's online currency that powers the Web and online success is trust With Trust Funnel Brian provides detailed formulas and rituals that enable anyone to leverage the exact same strategies tactics and philosophies that have allowed him to drive traffic build trust and earn a very comfortable living Trust Funnel tells the story of his mind boggling success and can be the springboard to yours *Returns of Trade ...
