Bhugra, Kamaldeep Bhui, Samuel Yeung Shan Wong, Stephen E. Gilman, 2018-09-13 Prevention of mental illness and mental health promotion have often been ignored in the past both in undergraduate and postgraduate curricula. Recently however there has been a clear shift towards public mental health as a result of increasing scientific evidence that both these actions have a serious potential to reduce the onset of illness and subsequent burden as a result of mental illness and related social economic and political costs. A clear distinction between prevention of mental illness and mental health promotion is critical. Selective prevention both at societal and individual level is an important way forward. The Oxford Textbook of Public Mental Health brings together the increasing interest in public mental health and the growing emphasis on the prevention of mental ill health and promotion of well being into a single comprehensive textbook. Comprising international experiences of mental health promotion and mental well being chapters are supplemented with practical examples and illustrations to provide the most relevant information succinctly. This book will serve as an essential resource for mental and public health professionals as well as for commissioners of services, nurses and community health visitors.

Rowe**, 1984 Inventing a Non-homeless Future Madeleine R. Stoner, 1989 This challenging book calls attention to the alarming fact that homelessness in America is increasing at the rate of 20 to 25 percent each year despite the growing number of services developed to help homeless people. The major position in this book is that emergency responses such as shelters, soup kitchens and turkeys at Thanksgiving and Christmas must shift to emphases on preventing homelessness in the first place. Dr. Stoner relates the social problem of homelessness to broader issues in society and recommends a series of preventive strategies to keep people at work with their families on decent welfare benefits in affordable housing or in mental health settings. All of these measures can keep people within the circle of housing.
