Why is there no minister for communications in the US and why does no one regulate the Internet there? From Silicon Valley to Tokyo, from South Africa to southern India and all the way to Cuba and Gaza, this unprecedented investigation in the field covers the whole battle of the Internet and its future. Drawing on hundreds of interviews in about fifty countries, Frederic Martel examines the different Internets on five continents. In so doing, he reveals that we are moving not only into a connected, globalized world but also a territorialized one.
