Writing the Future Suzanne McCray, Doug Cutchins, Cindy Schaarschmidt, 2025-07-07 *Writing the Future* Perspectives on Nationally Competitive Scholarships offers a timely and nuanced exploration of fellowships advising. This volume brings together experienced practitioners, scholars, and scholarship foundation representatives to reflect on a rapidly evolving landscape one shaped by shifting student demographics, emergent technologies, and renewed commitments to student success across a broad spectrum. The essays in this collection engage deeply with the developmental, rhetorical, and institutional dimensions of nationally competitive awards advising. Topics include appreciative advising, writing strategies, and the complexities of guiding students as they envision and articulate aspirational futures. Contributors examine how fellowship applications serve as tools for student growth, knowledge transfer, and reflection. They also explore how advisors can navigate the tensions between authenticity, institutional representation, and the demands of prestige-based selection processes. Several chapters offer practical guidance on writing effective nomination letters, engaging in selection processes, as external reviewers, and cultivating advising practices that are both ethical and empowering. A concluding chapter on NAFA's history situates these contributions within a broader narrative of professionalization and purpose in the field. Ideal for new and seasoned advisors alike, as well as faculty administrators and foundation partners, this volume affirms the transformative potential of a fellowships advising process that centers on student agency, fosters critical reflection, and reimagines what access to competitive awards can and should mean.

Business and Society Cynthia E. Clark, Kabrina K. Chang, 2024-12-10 Recipient of a 2021 Most Promising New Textbook Award from the Textbook Academic Authors Association (TAA). *Business and Society: Ethical, Legal, and Digital Environments* Second Edition prepares students for the modern workplace by exploring the opportunities and challenges that individuals and businesses face in today's increasingly global and digital world. Authors Cynthia E. Clark and Kabrina K. Chang present unique chapters on social media, big data, and hacking, and privacy, diving deeper into the new legal and ethical challenges that are unleashed by our society's use of and dependence on technology. Real world case studies, ethical dilemmas, and point counterpoint debates provide students with hands on opportunities to apply chapter concepts and develop critical thinking skills as they explore the relationship among businesses, their stakeholders, and their shareholders. The Second Edition includes new cases and expanded coverage of global issues, the future of work, artificial intelligence, and consumer rights.

Introduction to Ethics Chhanda Chakraborti, 2023-09-17 The book introduces the reader to western ethics as a subject along with its three standard subdivisions. Although the book is written with university students, policymakers, and professionals in mind, the book is lucid enough to be accessible to most adult readers. The book begins with introductions to the basics of ethics. These chapters are meant to provide the reader with the background knowledge necessary for understanding the more technical chapters on metaethics, normative ethics theories, and applied ethics, the three well known subdivisions within ethics. The chapters that follow take up core ethical issues from

each of these areas. The sections focus on explanation and a critical understanding of the ethical issue. The chapters also have examples, cases and exercises to encourage critical thinking and to enable the reader to grasp the issue better. The book has tried to bring contemporary issues such as ethics of human organ transplantation and contemporary theories such as Amartya Sen's concept of Justice and Martha Nussbaum's Capabilities Approach to engage the readers with ethics in the real world. The book concludes with applied ethics but with the example of ethics of artificial intelligence. The aim is to keep ethics as a future driven activity and to emphasize the need to understand the real world ethical situations and dilemmas that will affect the stakeholders all around the world in the coming years as artificial intelligence and data driven technologies change our everyday life.

Communicating Your Research with Social Media Amy Mollett, Cheryl Brumley, Chris Gilson, Sierra Williams, 2017-04-17.
