**Canada-U.S. Tax Comparisons** John B. Shoven, John Whalley, 2007-12-01 In the increasingly global economy domestic tax policies have taken on a new importance for international economics. This unique volume compares the tax reform experiences of Canada and the United States two countries with the world's largest bilateral flow of trade and investment. With the signing of the U.S.-Canada Free Trade Agreement and the tax reforms of the 1980s there has been some harmonization of tax systems. But geographic, cultural and political characteristics shape distinct national social policies that may impede harmonization. As the U.S. and Canadian economies become even more integrated, differences in tax systems will have important effects in particular on the relative rates of economic growth. In this timely study, scholars from both countries show that while the United States and Canada exhibit similar corporate tax structures and income tax systems, they have very different approaches to sales tax and social security taxes. Despite these differences, the two countries generate roughly the same amounts of revenue, produce similar costs of capital and produce comparable distributions of income.

**Changes in corporate effective tax rates over the past 25 years** André Hermann Frank, 2022-08-30 Bachelor Thesis from the year 2022 in the subject Law Tax Fiscal Law grade 1.3 University of Mannheim language English abstract This paper investigates trends in the corporate effective tax rate by replicating the renowned paper of Dyring et al published in 2016. Corporate effective tax rates have considerably declined over the period of 1988-2021. Both purely domestic firms and multinationals have seen a decline in effective tax rates with domestics having lower mean effective tax rates than their internationally operating peers. Moreover, both foreign and domestic effective tax rates have decreased for multinationals. Little of the decrease in effective tax rate can be explained by analysing the impact of firm characteristics and tax legislations.

How does taxation in Liechtenstein, Switzerland, Germany, UK, Australia and US look like for the cryptocurrency Bitcoin Anonym, 2017-05-31 Essay from the year 2017 in the subject Business, Economics, Accounting and Taxes grade 1.00 University of Liechtenstein from Hochschule Liechtenstein language English abstract This paper has a in-depth look into the subject of Taxation of Bitcoin in the UK, Germany, Liechtenstein, Switzerland, Australia. According to the US Internal Revenue Service IRS, Bitcoin is an asset or an intangible property but not a currency. The reason behind this
