Van harentwege verpleegd Tjakko Roman, 1971 Een delinquent vertelt in verhaalvorm over zijn leven als ter beschikking gestelde in een een moderne psychiatrische inrichting **The Other Side of Criminology** Gerardus Petrus Hoefnagels, 2013-06-29 Didactically a textbook of criminology should start at the beginning The learning process also an emotional process begins in criminology with the concepts views emotions attitudes and ideas we have regarding crime and criminals Exploration of these underlying factors is one of the aims of the present book We can free our thinking only by being aware of the significance of our own feelings and thoughts about a phenomenon like crime That is the basic problem confronting us In scientific thinking implicit postulates as to the *sensus communis* unless recognized and 1 neutralized grow into idols The fight against crime is one example of such an idol Crimes and criminals exist only by virtue of reactions to certain forms of behavior For this reason this book will begin by examining the reactions of society to crime Criminology is primarily a science of others than offenders In this sense I invert criminology The history of criminology is not so much a history of offenders 2 as a history of the reactions of those in power *Law and Mental Health* David N. Weisstub, 2013-10-22 Law and Mental Health International Perspectives Volume 3 considers the jurisprudence and models of legislation concerning public mental health that suit the particular requirements of different cultural and geographical regions This book is composed of five chapters and begins with the major accomplishment both for Dutch legal psychiatry and for the English language audience followed by a survey of the civil dimensions of the forensic system The next chapter tackles the primary variables in assessing terrorism including the social political religious and economic factors which coupled with highly complex variables of psychological predisposition can give some guarded inroads with respect to the limits of the knowledge in predicting and reacting to terrorist incidents These topics are followed by discussions on the techniques for assessment designed for the differentiated legal questions in criminal civil and juvenile and family law A chapter focuses on the measured assessments of the parameters of the professional knowledge about the nature of dangerous behavior based on clinical and research investigation The final chapter contains a precise summary of the research that is to be done on a spectrum of techniques for assessing malingering Mental health workers forensic experts and policy makers will find this book invaluable **Nederlandsch tijdschrift voor geneeskunde** ,1925 **The Emancipation of Prisoners** Herman Franke, 1995 Compared with most European countries The Netherlands sends few of its convicted criminals to prison and those who are imprisoned have more rights and better treatment than their European counterparts This study examines imprisonment in The Netherlands from the end of the eighteenth century to the modern day giving a close historical and sociological analysis of the changing trends in Dutch thinking about crime and prisons the growth of prisoners rights and the move away from cellular prisons **Tijdschrift voor strafrecht** ,1916 **The Mental Condition in Criminal Law** Frans Koenraadt, 2007-12-31 In the Netherlands the vast majority of forensic mental health

assessment on an in patient basis is carried out at the Pieter Baan Centre Utrecht which has the legal status of a house of detention and observation centre Suspects of serious offences are observed and assessed intensively for a period of seven weeks by a multidisciplinary team of experts Not only has the enshrinement of forensic mental health diagnosis in the law led to the accentuation of an individualistic type of diagnosis but also makes it important for the expert to consider his position in the justice system The various parts of the forensic mental health assessment are described in this volume as well as the legal enshrinement of the assessment an international comparison of Dutch criminal law the history of the hospital and a survey of relevant research The Pieter Baan Centre has existed almost sixty years Based on an extensive clinical experience the authors offer an account of the way in which this hospital provides for forensic mental health reporting Léon's rechtspraak David Léon,1930 **Eenige aantekeningen betreffende de strafbaarstelling van openbare dronkenschap** Jelle Cornelis Tjessinga,1921 Bijlagen van het verslag der handelingen Netherlands.
