**Flexible Automation in Japan** J. Hartley,2013-04-09 Much has been said and written about Japan s manufacturing  
prowess Most of the comment comes from people who are merely visitors to the country and can be best classified as  
observers looking in from the outside Other views come from the Japanese themselves in which the double barrier of culture  
and language filters out much information that would be of real value to Western industrialists Neither of these limitations  
apply to John Hartley who has been resident in Japan for the past five years He understands the culture can speak the  
language and has extensive contacts at the highest level Therefore he is in a unique position to report on the Japanese scene  
and its activities in advanced manufacturing technology This he has been doing on a regular basis to IFS magazines The  
Industrial Robot Assembly Automation Sensor Review and The FMS Magazine Most of the material in this book is from John  
Hartley s pen and represents his most significant contributions on flexible automation in Japan to these journals over the last  
three years It is augmented with a few other articles written by leading authorities on new technology in Japanese  
manufacturing industry      **Cycle World Magazine** ,1976-01      **AES** ;,2003      Electronic Musician ,1994      **Subject**
